Supervisors Must Levy School Tax

HIGH COURT DECIDES CASE

Writ of Mandate Ordered; City of Oakland Victor

All Supervisors in State Are Bound by Decision

SAN FRANCISCO, Sept. 13. — The Board of Supervisors of Alameda county must levy a tax sufficiently large to provide the necessary funds for running the Oakland schools for the next fiscal year, according to a decision handed down at midnight by the Supreme Court. A peremptory writ of mandate was ordered issued by the tribunal and directed against the supervisors in response to an application made by the Oakland School District.

At the same time the court denied the request of the Berkeley School District for a similar writ against the city council of Berkeley. The supervisors will have to provide for Berkeley also, although they have not been directed to do so by the court. The action in the Oakland School District will however, serve as a precedent which can be followed by all of the districts in the State.

TEXT OF DECISION.

The decision of the court was as follows:

"It is ordered that peremptory writ of mandate issue herein, commanding the defendants that they levy a tax upon all of the taxable property of Oakland School Districts sufficient in amount, together with the amount of money to be received from the State of California, county of Alameda and from other sources, for the adequate support of the public schools of the said district for the fiscal year 1913-1914 not exceeding the amount of the estimates heretofore presented to such board."

In deciding the case of the Berkeley School District vs the Berkeley City Council the court says:

"It is ordered that the application for a writ of mandate herein be denied, and that the alternative writ heretofore issued be discharged."

Presiding Justice Beatty of the Supreme Court, when interviewed, stated that all of the Boards of Supervisors in the State were by law held responsible for making a tax levy of the sort demanded in this instance.

TAX RATE MAY BE 80 CENTS.

That the Alameda county tax rate this year will probably be near the 80-cent mark is the opinion of members of the Board of Supervisors, who have not yet finished pruning down the estimates made by the various departments as to their needs for 1913-14.

With the decision of the Supreme court to the effect that the county government shall levy the city school taxes, the rate will be increased for that reason and will probably be in the neighborhood of 34 cents additional from what was figured upon

LATE MAYOR GAYNOR ONE TIME A MEMBER ST. MARY'S FACULTY

William Gaynor, late mayor of New York was one of the original band of eight brothers who came to this State from New York in 1865 under the leadership of Brother Justin to act as the faculty of St. Mary's College. However, upon the second day of his arrival Gaynor, who was at that time Brother Adrian, decided that he didn't care to teach, and promptly resigned.

FRIEND OF SLAIN GIRL FOUND

San Jose Surgeon Says He Was Not Miss Day's Lover

BULLETIN.

SAN JOSE, Sept. 13.—Dr. Alfred Arrichia, who has lived here since last April, said today he might be the man sought by the New York police as "the young married surgeon Annette Day loved." "My family and I," he said, "were neighbors of the Days and the families were intimate friends, but it was as a friend only that I knew Anette. The last time I saw her was when she ate Christmas dinner at our house a few days before I left for San Francisco.

"I have not written letters to anyone in Brooklyn, or in the East because I feared the 'black hand.'

"My wife went back to Brooklyn in August to be confined, and I expect her to return as soon as she is well enough to travel."

SEEK SURGEON.

NEW YORK, Sept 13.—The young married surgeon whom Annette Day loved was sought diligently by detectives today to tell what he might know of Miss Day's last hours. Her brother, Francis, a real estate dealer of this city, declared last night that she was the slain woman whose body was dissected and thrown into the Hudson within the last two weeks. He identified a portion of the body—the head, arms and one leg was still missing—as that of his sister by an odd-shaped discoloration on her back, which he said was a birth mark.

LEFT HOME.

Annette Day, according to the brother's story, was 23 years old, of

THAW WINS FIGHT FOR WRIT

Captors Must Bring the Prisoner Into Court Tuesday Morning

Judge Edgar Aldrich Grants Plea of Fugitive's Attorneys

CONCORD, N. H., Sept. 13.—In the United States District Court in this city, this afternoon, Judge Edgar Aldrich granted the petition of counsel for Harry K. Thaw for a writ of habeas corpus, returnable at Littleton on Tuesday next at 11 a. m.

Nathaniel F. Matin of this city and Merrill Shurtleff of Lancaster appeared as counsel for Thaw. The state of New York was not represented at the hearing.

Proceedings were in chambers, only the judge, counsel and clerk of the court being admitted. Judge Aldrich issued also an injunction restraining all parties from interfering with the service of the writ or with Thaw pending the hearing at Littleton. Copies of the writ and injunction will be served on Sheriff Drew of Coos county, William T. Jerome and Attorney-General James P. Tuttle.

The effect of this proceeding is to bring the situation to a standstill until next Tuesday.

COUNCILMEN IN VERBAL AFFRAY

"Good Night!" Shouts Stewart to Probst; Words Follow

ALAMEDA, Sept. 13. — "Good night!" shouted Councilman George W. Stewart last night at the meeting of the committee of the whole of the city council when Councilman E. J. Probst stepped to an ante-room to get his hat preparatory to leaving the committee room.

"I will not take any such remark from Councilman Stewart," said Councilman Probst, stepping angrily back toward the committee table. "It was said sarcastically and I will not stand for it."

"If you are sore, rub the sore spot," returned Councilman Stewart.

"That's enough from you," replied Councilman Probst. "I do not wish to speak to you or have you speak to me."

CALLED TO ORDER.

Council President Alfred Morgenstern demanded order.

"I have been assailed several times on the floor of this council," he remarked, "and I have always tried to be a gentleman. I see no reason why I should not continue to act with dignity and as a gentleman. I have gone before the people and have received vindication at their hands. If the same attitude continues in this council as has been evinced of late, I am going to take a hand in it myself. I hope you will all desist and act like gentlemen."

"I do not owe an apology," Councilman Stewart interjected, "and I do not propose to give one. He has been carrying a chip on his shoulder for several months."

"You will get no apology from me, either," vouchsafed Councilman Probst.

Councilman Morgenstern asked for order again and the battle of tongues subsided. No blood was shed and no arrests made.

Bubonic Plague Death Sporadic

WASHINGTON, Sept. 13. — Surgeon General Blue of the Public Health Service declared today there was no cause for alarm in the one death from bubonic plague at Martinez, Cal. The case is regarded simply as a sporadic one not in any way an indication of danger of an epidemic, but entirely due to ground squirrel infection. For several weeks the public health service has been making plans for increased activity against rodent carriers of the disease on the Pacific Coast and those plans are about to be put into execution.

IMPORTANT WITNESSES MISSING

Florence and Leila Harden, Wanted to Convict Men Gone

Young Girls Searched for by Police; Testimony Necessary

Spirited away mysteriously at midnight from their father's home in Alameda, Florence and Leila Harden, two girls 14 and 17 years of age, who are the two star witnesses in two felony cases now awaiting trial before the Superior Court, are being sought by the police of the bay section. The father of the two girls, O. L. Harden, 1566 Pacific avenue, Alameda, reported the strange disappearance of his daughters to the police this morning and is aiding the police in the search for the two girls. The mother is frantic with anxiety as to the fate of her daughters.

The two girls disappeared before in a mysterious manner August 10. The father succeeded, with the aid of the police, in tracing them, and it was discovered, the police charge, that they had been taken to the rooms of John Esbleman and William H. Denham in the Rex hotel in this city. The younger girl had remained there for some hours and had then gone to the home of her aunt at Tenth and Jefferson streets. The elder girl, Leila, had remained in the hotel all night, declare the police, and this fact formed the basis of felony charges against Esbleman and Denham.

BROUGHT INTO COURT.

The two men were arraigned before Judge George Samuels, and the girls were brought into court to testify. They admitted going to the rooms of the two young men, and Leila Harden told of staying all night there. They had met the two young men at a public park, they stated.

On the basis of this testimony W. H. Denham was held to answer on a statutory charge of felony August 27, bail being fixed in the sum of $1000. The case has been transferred to the Superior Court and Denham is being held for trial.

Esbleman, alias Shannon, was held to answer on a similar charge on the testimony of the girl, who is just over 17 years of age, August 29, the bail being the

GAYNOR'S REMAINS ABOARD STEAMER

Unprecedented Honors by Great Britain Mark Removal

LIVERPOOL, Sept. 13.—The body of the late Mayor Gaynor of New York was removed this morning from the Liverpool town hall, where it had been accorded unprecedented honors by Great Britain, and taken to the Cunard Line steamer Lusitania. It was placed in the special mortuary chapel on the forward deck of the steamship.

The Lusitania is due to arrive at New York September 19.

A special guard of six policemen watched over the body in the town hall throughout the night. The casket rested in a great catafalque which had been brought to Liverpool from Westminster Abbey.

Early this morning the mayor's body was re-embalmed, this being found necessary. A death mask of the features of the mayor also was taken this morning in accordance with instructions received from Mrs. Gaynor.

These Liverpool clergy, headed by bishop of Liverpool, persuaded Rufus Gaynor to consent to the holding of a religious service at 7 o'clock this morning. In the dim light of candles and in the great fog which enshrouded the hallway the Rev. Theodore A. Howard, vicar of St. Matthews, conducted an impressive church of England funeral ritual over the remains of the dead mayor.

PARK NAMED FOR GAYNOR.

NEW YORK, Sept. 13.—Because of Mayor Gaynor's great interest in parks and playgrounds, one of the finest park playgrounds in the city will receive his name. In making known today his plan to give the name Gaynor to a recreation center, Park Commissioner Stover said he had in mind one on Washington Heights, which is rapidly nearing completion. It is one of the finest in the city.

"This center will include the two features that the mayor liked, that of a playground adjoining a park," said Commissioner Stover. "He loved to watch the children at play."

TESTIFIES BREWERS RAISED SULZER FUND

Salesmen Declare $50,000 Was Not Mentioned by Governor

NEW YORK, Sept. 13.—The Assembly board of managers for the impeachment of Governor Sulzer announced today that Charles Dersch, a salesman allied with the brewery interests, had testified privately that he had collected nearly $50,000 for Sulzer's campaign which was not accounted for by the Governor in his statement of campaign contributions.

The announcement was made by Assemblyman Aaron J. Levy, chairman of the board of managers, when the board met to continue its investigations today for the purpose of gathering evidence for the prosecution at the impeachment trial.

Dersch was one of the witnesses called yesterday, but at his request he was allowed to give his testimony in private. The $50,000, Levy said, had been collected from the brewing and malting interests.

"This is the most sensational evidence we have got yet," said Levy.

He declined to give details of Dersch's testimony.

COMPARISON BY PROFESSOR ODIOUS

Fremont High School Girls Resent Teacher's Criticism

Horrors, girls! Think what you would look like in Boston in these togs! The spokes would be shocked out of the Hub!

Professor H. D. Brasefield, formerly of Boston, has decided that the girls of California dress with too much local color. He means, for he said so, that the hobble, the slit skirt, the low cut dress—all are very, very immodest and not at all "nice" for high school girls. The maidens of the Fremont High school are particularly breezy in their dresses, he says, and particularly unlike the little girls Professor Brasefield knew in Boston.

MY, SUCH A DIFFERENCE.

Brasefield is vice-principal of the Fremont High school and yesterday lectured on dress at the regular Friday school assembly. He declared that the girls in Boston are models. They dress modestly. All the skirts are wide enough to walk around in without having slits in them. He declared the girls do not wear too colorful raiment, and altogether the ef-

Society Girl Hurt In Auto Crash

Miss Pauline Smith, daughter of Dr. W. O. Smith, 808 Grand avenue, Alameda, was injured in an automobile accident last evening when an automobile driven by G. Hill, 526 Twenty-seventh street, crashed into Dr. Smith's machine at Twelfth and Clay streets. Miss Smith, [illegible] nent young society woman of Alameda, was thrown forward against the front seat and sustained injuries to her arms, which caused a badly wrenched shoulder.

The fore wheel was wrenched from Hill's machine, and the fender was torn from Dr. Smith's auto. Miss Smith was taken to her home in Alameda, where she is under the care of her father.

IDENTIFIED IN GOTHAM MORGUE

Mangled Body Is Found After Thirteen Days of Searching

Was Struck and Killed by Train Soon After Eluding Nurses

NEW YORK, Sept. 13.—"Big Tim" Sullivan, the New York politician, who rose from newsboy to Congressman, is dead. His mangled body was identified today by his stepbrother, Larry Mulligan, after it had lain for thirteen days in a local morgue.

Sullivan, who was ill, eluded his nurses in the early morning of August 31st, and a few hours later was struck and killed by a train at Pelham Parkway.

Sullivan's body was on its way to the potter's field when the chance observation of Policeman Purfield identified it. The transfer from Fordham morgue to the one at Bellevue hospital is the usual preliminary to interring the city's paupers and unidentified dead in the public burying ground.

With no identifying marks on the clothing or articles in the pockets the body lay in Fordham morgue for thirteen days, awaiting identification. This morning it was sent to Bellevue morgue. There was stationed Peter Purfield, a policeman, who had known "Big Tim" before his mind became clouded. Something about the expression of the features stirred Purfield's memory. After he had pondered an hour or so Purfield remarked to a reporter: "That looks a little bit like 'Bib Tim'".

Peering long at the mutilated and discolored face, the reporter thought so, too. The telephone brought "Big Tim's" East Side friends in groups to the morgue, but none recognized in the changed features the man they had known in his prime.

STEPBROTHER IS SUMMONED.

Larry Mulligan, Sullivan's stepbrother, was summoned. He looked at the face once and turned away.

"It's 'Big Tim,'" he said. "Big Tim" met his death two hours or less after he had wandered out into the night from the home of his brother, Patrick, at Williamsbridge. The neighborhood is sparsely settled there and Sullivan had but a dollar in his pocket. He struck out across the fields for the railroad apparently with the thought in mind that he would take a train for New York and visit his former cronies on the East Side.

Pelham Parkway station lay not far away. It is possible that Sullivan saw its lights and made it his immediate destination. At any event, his body was found at 4 o'clock in the morning near the tracks by a policeman. It was taken to the Fordham

CHINA YIELDS TO JAPANESE DEMANDS

Ultimatum Accepted in Entirety and Indemnity Promised

PEKING, Sept. 13. — Japan's demands presented to China two days ago in connection with the killing of Japanese subjects and the trampling of the Japanese flag by Chinese were accepted in their entirety today by the Peking government.

The Japanese note containing the demands which were tantamount to an ultimatum, was drafted as a result of the killing of three Japanese and the maltreatment of a consular messenger at Nanking, the torture of a Japanese lieutenant at Hankow, and the imprisonment of a Japanese lieutenant at Sha Tung.

The Japanese government demanded an apology for insults directed at the Japanese flag, the punishment of the Chinese officials responsible for the shooting of the Japanese at Nanking and the paying of an indemnity, the amount to be arraged later.

CHEMISTRY PROBLEM YIELDS A FORTUNE

Tartaric Acid Making Is Revolutionized by U. C. Graduate

Solving a problem in chemistry on which he worked for four years has made a rich man of Mooshegh Vaygouny, graduate of the University of California and well-known chemical expert, who has announced to the world the discovery of a long-sought for commercial formula—how to convert grape sugar into tartaric acid. At the time he undertook the task, while still a student at the state university, there was a $50,000 prize offered for the feat. He did not claim this, but through his research has won himself royalties amounting to $100,000. He negotiated with a baking powder company when he first evolved the method and the firm [illegible] ported his researches.

The young chemist, who has revolutionized the tartaric acid manufacturing method, is an Armenian and is well known on the Berkeley campus. He resides in Berkeley, at the head of Virginia street, where he has a home and laboratory. He was a graduate of the university with the class of 1901 and a special pupil of Professor H. C. Biddle.

DARROW EMBRACED MRS. MAYR, CHARGE

Los Angeles Woman Alleged to Have Won His Affection

LOS ANGELES, Cal., Sept. 13.—Clarence Darrow, noted Chicago labor advocate and lawyer, was named in the trial of a separate maintenance suit of Mrs. Ann Etta Mayr, formerly of Chicago, which is in progress today in the superior court. Testimony that Darrow, during his visit to Los Angeles in 1907, embraced Mrs. Mayr, was given by Miss Caroline M. Moore, a neighbor of the plaintiff. Five years later she said, when Darrow returned to this city to defend the McNamaras she recognized him as the man she had seen kissing Mrs. Mayr.

Mrs. Mayr admitted that Darrow had visited her in a private capacity, but said Mrs. Darrow accompanied him on each occasion.

DARROW DENIES STORY.

CHICAGO, Sept. 13.—"There is nothing to it all" said Clarence S. Darrow this afternoon referring to an alleged embrace he was said to have given Mrs. Ann Etta Mayr in Los Angeles. "No such incident ever took place. I never saw Mrs. Mayr at Los Angeles except in the presence of my wife."

Famed Prima Donna Coming

Beatrix Michelena Engaged

MISS BEATRIX MICHELENA, FAMED CALIFORNIA PRIMA DONNA, WHO WILL BE HEARD AT MECHANICS' FAIR IN SAN FRANCISCO.

Close following the announcement that Orville Harrold, the great tenor, and Alice Eis and Bert French in their sensational "Rouge et Noir" dance have been engaged as special features for the Mechanics' Fair, comes another that Beatrice Michelena, the famed California prima donna, who is returning from a tremendous Chicago success, has been added to the unusual talent that may be seen in the National theater during the exposition.

Of all the horde of renowned stage folk whom California has produced none have greater talent or versatility than Miss Michelena. To an incomparable voice that ranges three full octaves, this prima donna adds gracea, beauty and dramatic instinct of rarest quality. Relying on the authority of the Chicago press hers was the greatest individual hit made in the Lake City this past season, and it was she more than anyone else that made the "Tik-Tok Man" the greatest Chicago success of many years.

SANG LEADING ROLES.

The engagement of Miss Michelena is an unusually happy one, since the name Michelena is about as much of a tradition in San Francisco's amusement history as is that of Mechanics' Fair. In the old days of the Tivoli Miss Michelena's father, Fernando Michelena, sang the leading tenor roles, and so wonderfully well that San Francisco achieved a national reputation as an operatic center.

When a mere slip of a girl, sixteen years of age, Miss Michelena began her operatic career in Kirk La Shelle's "Princess Chic." The following season she was playing the leading role in Henry Savage's "Peggy from Paris" and was immediately hailed as one of the greatest light opera prima donnas on Broadway. Close following this success Miss Michelena appeared as the Girl in the Shuberts' "Girl From Dixie," rescued the opera from what looked certain failure and made it the greatest drawing card of the season. This achievement was so great for a girl still in her teens that Miss Beatrix's reputation was established for all time.

A thing that will add interest to Miss Michelena's appearance at the Mechanics' Fair is the fact that she has not been heard in San Francisco for over two years.

Criticising her in the role of "The Rosebud Princess," Myron C. Fagan, who has written several of the best American light operas, including "The Siren," and whose opinion is accepted as the last word in dramatic criticism, declared her voice as wonderful as that of a nightingale andn she the greatest of light opera prima donnas. Scarcely a year before Polly Pry had promised that in Miss Michelena America would produce her first great Carmen.

The last San Francisco engagement filled by Miss Michelena was a special one in John Cort's production of the "Kissing Girl," and the furore that she created in local theatrical circles on that occasion is a matter of history.

STUDIED UNDER FATHER.

Since that engagement the prima donna has been devoting the greater part of her time to studying under the direction of her father for the grand opera stage. She has interspersed these labors, however, with an Orpheum engagement, in which she was given a great reception all over the circuit, and the recent engagement with Oliver Morosco in the "Tik-Tok Man."

Previous appearances here have proved that there is no artist better able to draw a California attendance than Miss Michelena. She has a tremendous following about San Francisco bay and her determination to sing this fall has created no end of interest and comment.

FRIEND OF SLAIN GIRL IS FOUND

dark hair and complexion and one of five children. Her mother lives at Tarrytown and last saw Annette on August 16, when the girl, facing motherhood, left home. They thought little of her silence for a while, believing she had got another place at her trade as machine operator on underwear. But after a fortnight had passed without word from her the brother became alarmed and began to look for her.

POLICE NOT NOTIFIED.

The police were not notified because the brother felt that the girl might still be alive and he did not want to make her disgrace public.

Detectives were told this morning that the surgeon has disappeared recently from his home in Brooklyn. His wife and two small children, it was said, were still there. He had told his friends, according to the police, that he had been threatened by the "black hand." They thought this strange, as he was not wealthy.

ADMIT IDENTITY.

The police late this afternoon admitted that Dr. Alfred Orrichia was the young married surgeon whose name nad been given them by the brother of Annette Day. So far as could be ascertained no move had been made to bring about the doctor's arrest. This might have been because the authorities were not yet satisfied with the identification of the murdered girl made by Francis Day, the brother.

Annette Day's mother viewed the pieces of the body this afternoon and said she did not believe the victim was her daughter.

TOLD IN OAKLAND

A Resident Known to All Our Readers Relates an Experience.

Readers of THE TRIBUNE have been told again and again of the merits of that reliable, time-proved kidney remedy—Doan's Kidney Pills. The experiences told are not those of unknown persons, living far away. The cases are Oakland cases, told by Oakland people.

J. Lee, shoemaker, 2338 Twenty-fifth avenue, Oakland, Cal., says: "Twelve years ago I began to have trouble with my back and kidneys. At night I was annoyed by pain across the small of my back. I also had this trouble during the day. I had pains in my hips and head. The close confinement and sitting for hours at the bench in a stooped position, I believe caused the trouble. I lost weight and had trouble from too frequent passages of the kidney secretions. At last I heard about Doan's Kidney Pills and from the time I began using them I noticed improvement. I continued taking them and was benefited in every way."

A LATER ENDORSEMENT.

When Mr. Lee was interviewed on October 13, 1912, he said: "I seldom need any remedy for my kidneys now, but when I do, Doan's Kidney Pills are the best. They soon make me feel right. During the past three years I have used two boxes and they have kept my back and kidneys in good condition. I am glad to confirm my former statements."

GIRL WITNESSES HAVE DISAPPEARED

same. He is also held on bonds pending his trial before the Superior Court.

A peculiar feature of the case was that the two men were held under the new law passed by the recent legislature, raising the age of consent from 16 to 18 years of age. Leila Harden is a few months over the age of consent under the old law. The new law went into effect at midnight, and the alleged offense was committed within two hours after the law had become operative.

GIRLS MUST BE FOUND.

The girls testified, but it was with some reluctance. Their testimony is essential in carrying forward the prosecution against the two young men, as it was necessary to have the testimony of the two girls to hold the men to answer. There will be no possibility of gaining a verdict against the defendants, or of carrying the case to trial, if the girls are not found.

Inspectors Hodgkins and Woods, who worked on the first case when the girls disappeared before, have been detailed on the case, and all the bay towns are being searched for the two.

It is believed that they were aided in their flight and that they have taken refuge in some secret hiding place.

Following the preliminary examinations in the police courts into the Eshleman and Denham cases, the two girls were allowed to return to their homes. They disappeared without warning last night.

It was thought that the flight was carefully planned, and that the girls had been advised in their plans by someone older than themselves. They disappeared without making a sound, and it was not until this morning that it was discovered they had left their bedroom and had gotten away from home.

MRS. HARDEN EXPLAINS.

ALAMEDA, Sept. 13 — Mrs. Harden, when seen this morning, said that her husband had gone to Oakland and was making every effort to locate her missing daughter. Mrs. Harden said that statements that the girls had been taken from a room in an Oakland lodging house are false.

On the occasion of their last disappearance from home, and prior to the girls' being turned over to the Oakland police, Mrs. Harden said they were at the home of her husband's sister and that their father went for them there and himself gave the girls into custody. Mrs. Harden admitted that her daughters had not been at the home of their aunt during the entire time of their absence. She refused to say where they had been or to giv the aunt's name.

Mrs Harden was unable to advance any reason for the second disappearance of the girls, but declared that neither she nor her husband had any idea of their whereabouts.

Leila Harden was graduated from the Washington school with the December, 1912, class. Her sister, Florence, was a member of the B Sixth grade of the same school.

KYTKA CAN FORGE FINGER IMPRINTS

Handwriting Expert Has Found a Method of Copying Impressions.

SAN FRANCISCO, Sept. 13. — A discovery which [illegible] the entire police identification system by the finger-print method has been made by Handwriting Expert Theodore Kytka, who has discovered a means by which finger-prints may be forged. He can through his system imitate thumb and finger marks so cleverly that detectives are completely deceived. The method has nothing to do with photography, according to his announcement. The process is so simple, he declares, that any one may do it possessing the secret. Finger-prints in which marks are well defined can by the expert be transferred and converted into bloody marks on any material.

Kytka refuses to make his method public, declaring that it would prove a menace to the community. Men could be hanged on the evidence of a forged thumb or finger-print, he said. They might not have been within miles of a crime.

Kytka first conceived the idea while working in a photo engraving shop as a boy. Lately he has evolved it. Besides being the official handwriting expert in the courts here, he is also one of the foremost finger-print experts in the world.

Kytka's discovery was scoffed at by Detective William J. Burns on his last visit here. Today Burns was confronted by his own bloody thumb prints on an electirc globe. Kytka took Burns' fingerprints unknown to the latter and transferred them. Burns is now convinced in the discovery's practibility.

SECRETARY LANE TO REST IN SOUTH

BERKELEY, Sept. 13—Though still unable to take such a trip, Secretary of the Interior Franklin K. Lane plans to leave as soon as his condition improves for some point in the south where he will rest in quietude until able to return to his official duties at Washington. Dr. Clark Burnham, who is attending Secretary Lane for angina pectoris, believes it will be some days before his patient is able to travel.

Secretary Lane was sufficiently strong yesterday to be taken on an automobile tour of the Berkeley hills, the first occasion on which he has left the residence of his brother, Dr. Frederick Lane of Avalon avenue, since being taken there after his collapse in the Admission day review[illegible] family accompanied him. No plans have yet been made for the secretary's reurn to Washington.

IDENTIFY 'BIG TIM' IN N. Y. MORGUE

Former Congressman's Badly Mangled Body Found After 13 Days Search.

morgue. For many months Big Tim's mind had been under a cloud. Elected to Congress last fall; he had never taken his seat because of this trouble. A commission was appointed to administer the affairs of his large estate and to watch over his person.

HOPED FOR IMPROVEMENT.

Last May Patrick took him to Europe, hoping that the ocean voyage and a trip on the continent would restore him to health. When he came back, however, his friends saw [illegible] was taken to the Williamsbridge home of his brother, and three male nurses were employed to guard him. Once he eluded them and went back to the East Side. He remained there but a few hours until his nurses were notified, and he was again under surveillance.

On the night he disappeared he sat up until 2 o'clock playing pinochle. Two of the nurses went to bed at midnight, leaving the third to continue the game. The third nurse became drowsy, "Big Tim" did not. When the nurse finally slumbered, "Big Tim" cret noiselessly out of the house and went to his death.

DID NOT TAKE SEAT.

WASHINGTON, Sept. 13.—"Big Tim" Sullivan was elected to the Congress now in session, but did not take his seat because of illness, and as far as records of the capitol show, he has not been in Washington since it began work. He drew his pay, however, "by commission," the House agreeing to pay his salary to those appointed by the New York courts to look after his affairs. He had been a Representative in the Fifty-eighth and Fifty-ninth Congress and was then very active.

His death will necessitate a special election in the Thirteenth New York district, which comprises New York county. That will be the fifth special election caused by death since the Sixty-third Congress began work in March.

Customs Officers Hear Story of Opium Cache

SAN FRANCISCO, Sept. 13.—A conversation overheard yesterday in Union Square by Douglas Tilden Jr., nephew of the sculptor of that name, resulted in sending United States Customs officers hurrying today to search the fashionable and exclusive Belvedere Island for a cache of smuggled opium. An American and a Chinese hidden behind shrubbery carried on the conservation overheard by Tilden, and a dicker by which the white man would deliver the drug to the Oriental at a certain price was entered into. Tilden strolled around the shrubbery and took a good look at the parties involved. He could identify the white man, he thought.

"We've got one of the biggest caches you ever heard of on Belvedere Island. It's a cinch. I can furnish you all you want if you pay the price," was the statement the eavesdropper was able to distinguish.

HELD FOR FORGERY.

Albert Schumhoff, arrested after he had passed a bad check for $30 on a saloon keeper, was held to answer this morning before Judge George Samuels on a charge of forging the name of Percy J. Walker to the check. Bail was fixed in the sum of $1000.

MEDICINE TOO STRONG FOR BYERS' STOMACH

James Stewart, an agent, was arrested this morning on a misdemeanor charge. J. A. Byers is the complaining witness. Byers alleges that he had a pain in his stomach and that Stewart alleged that he could cure him. He sold him some medicine, and it doubled Byers up with agony. He sought a warrant against Stewart for obtaining money under false pretenses.

PROFESSOR CRITIC OF GIRLS' DRESS

Vice-Principal Tells Fremont Pupils of Boston Model.

(Continued From Page 1)

fect is very subdued compared to that of the maids of Fremont High.

"High school girls should dress modestly and appropriately," he declared. "I notice a great difference between some of the girls here and the girls in Boston."

Continuing, the professer declared that here the tendency was toward too low necks, too narrow skirts, too light clothing, and a general effect of unfitness and impropriety.

Anger reigns today among the fair students of the school as a result of the professor's talk.

COMPARISON ODIOUS.

"I think it's a shame," said one "that we should be 'bawled' out for being up to date and in style. We don't care what his slow old Boston girls do. This is California, and if we're ahead of Boston in styles, it's their fault. Who wants to wear the clothes they wear in Boston? Not we!"

All deny that the styles in Fremont High are open to any criticism.

Among the girls of the school who are known in the younger set as beauties and who are leaders of student activities are. Misses Ethel Schmidt, Reba Hoff, Gladys Gary, Elsie Spencer, Irene Lorimer, Doris Porter, Dorothea Taylor, Ruth Fletcher, Doris Jacobs Eta Stranger, Marion Van Horn, Robilla Bowington, Grace Powers and others.

MRS. CROWSON IN ANOTHER ACTION

This Time She Says Husband Is Trying to Sell Home.

That Edward A. Crowson has attempted to defraud his wife out of her interest in their $4250 home on Shafter avenue is charged in an amended cross-complaint of divorce filed today by Mrs. Mary Clayton Crowson through her attorneys, Rose and Silverstein. Mrs. Crowson names E. A. Janssen as a party to the alleged deal and asks the court to restrain any transfers that would be against her interests in the property.

Mrs. Crowson recites that to the best of her information, her husband has pretended that his payments of $32.50 per month have been allowed to lapse thus nullifying his agreement to purchase. There is said to be an equity of nearly $1500 in the property while Janssen holds an interest of about $250 outside of a

The divorce troubles of the Crowsons were linked with that between Lewis C. Hinckel and Florence G. Hinckley, neighbors. Mrs. Crowson alleged in her cross-complaint that Mrs. Hinckel had been the subject of Crowson's attentions at various times.

Yesterday Lewis Hinckel was ordered to pay his wife $50 per month temporary alimony. She testified that he had spent his time visiting roadhouses and attempting to "make-up" with her instead of looking for a job as the court had ordered him to do.

PROBATE PETITION FOR LARGE ESTATE

Late Thomas Anderson's Property Shown to Be Worth $110,000.

Petition for probate of the $110,000 estate of the late Thomas Anderson was filed in the Superior Court today by Misses Adams & Ogden, the two young women attorneys of San Francisco, who recently graduated from the University of California Law School.

Mary E. Anderson, widow of the deceased, has applied for letters of administration. The estate consists of 74 acres of land at the head of Thirty-fifth avenue, valued at $50,000, 140 acres of land near Mission San Jose valued at $6000, and about $40,000 in various banks.

The will leaves the estate to the widow and four sons, William J., Thomas, Archibald and Franklin P. Anderson, all residents of Oakland.

Thomas Anderson died on August 30 last at the age of 79 years.

HOUNDS TO TRAIL MAINE'S "CAVE MAN"

SPENCER, Me., Sept. 13.—A bloodhound is in readiness to rescue Joseph Knowles, the Boston painter of wild life, should reports from the forest home of the modern cave man fail to appear. In addition a score of guides will go to the rescue if indications point to accident or illness of the man of the woods.

Knowles, before entering the Maine forest here to live for two months the life of prehistoric man, without the aid of modern clothing, tools, food or devices of any kind, arranged for a safety signal to the outside world. Twice a week he is to appear at a given point and deposit messages and drawings for the outside world. On appointed days a guide reaches this cache two hours before sundown. Should the report be missing the guides from the fishing camps will enter the domain of the cave man. With the scent from the clothes that Knowles discarded on the shore of Big Spencer Lake, now held by Harry M. Pierce, owner of King & Bartlett camps, the man-trailing dog will also enter the search.

The owner of the dog, E. L. Howard, a special examiner of the United States bureau of pensions, has offered his services. Mr. Howard, who has headquarters at Portland, is traveling in Maine. Arrangements have been made to call him and his dog into the hunt should Knowles fail to report.

PINS NAME ON HER COAT; TAKES POISON

Suicide Is Believed to Be Mrs. Andrew Wilkie, Wife of Contractor.

Swallows Fatal Draught and Leaps Into Lake at Park.

SAN FRANCISCO, Sept. 13. — After carefully removing her coat and pinning upon it a card bearing the name of Mrs. Andrew Wilkie, of 2 Hugo street, wife of Andrew Wilkie, a wealthy local contractor and member of the grand jury which indicted the grafting policemen, a

lowed the contents of a vial of poison and jumped into Quarry Lake in Golden Gate Park at 1 o'clock this afternoon.

Charles Vallee, Louis Vallee, John Vallee and Mrs. Josie Vallee, all of 2729 Baker street, saw the woman as she was taking off her hat and thought little of it. A moment later they observed her place a bottle of poison to her lips and dive into the water. The men rescued her and hurried her to the Park Emergency Hospital, but she died a half hour later.

When the Andrew Wilkie Company was communicated with it was learned that Wilkie was at lunch, as was also his son Frank. Manager Wilson stated that the description of the woman tallied with that of Mrs. Wilkie. He could give no reason for the suicide, saying he had heard of no difficulty in the Wilkie household. The woman was about 60 years of age, with gray hair, and was well dressed. There was no one at home at 2 Hugo street and the facts of the pinning of the card on the coat would seem to indicate that it was indeed Mrs. Wilkie who ended her life.

The Wilkies have two daughters, who are summering at Guerneville, besides Frank Wilkie, who is connected with the contracting firm.

DIRECTORS SAID TO FAVOR PROJECT

San Francisco and Oakland Terminal Railroad Board Not Opposed.

SAN FRANCISCO, Sept. 13.—Directors of the San Francisco and Oakland Terminal Railways will be in favor of the ownership of these properties, according to a report current here today. The matter has not been presented to the directors formally, but it is said that it probably will be by Monday. The report is that the board will not only refuse to oppose municipal ownership, but that it will favor it.

At a meeting of the stockholders of the traction company, held yesterday at the Syndicate Building, Oakland, the proposed plan for increasing the bonded indebtedness of the company to $30,000,000 was abandoned.

Another plan for securing the money needed for extensions has been suggested by officers of the company and by the members of the Smith advisory committee and the committee in charge of the affairs of the United Properties company.

This plan will be submitted to the board of directors of the terminal railways company at a meeting to be held Monday or Tuesday, and, if it is acceptable, a call will be sent out for another meeting of stockholders, at which the new plan will be submitted to a vote.

CHECK FOUND IN SECOND-HAND DESK

J. C. Laney Forwards Paper to Manager of Legal Publication.

After two years of concealment in the bottom of an old office desk that has several times changed ownership, a letter containing a check for $3 was found and forwarded by the present owner of the desk today to J. C. Laney, manager of the Inter-City Express. Two years ago, while located in Berkeley, Laney used a desk that was sold on his removal to Oakland. Since then the desk has been the property of different persons, until finally it went into possession of Atlee F. Hunt, who on giving it a general clean-up, found the letter and handed it to Laney. It was drawn by the Bank of Centerville.

ALAMEDA TO ASK FOR MORE FLAGMEN

ALAMEDA, Sept. 13.—The state railroad commission is to be asked by the city council to compel the Southern Pacific company to station a flagman at Webster street and Lincoln avenue. This action was decided upon last night at the meeting of the committee of the whole when Councilman William Hammond Jr. made such a motion.

The public utilities committee is to request the Southern Pacific company to also station a flagman at Pacific avenue and the railroad company. If the request is not granted the matter will also be sent to the railroad commission. Councilman Hammond brought up the matter of the necessity of a flagman at this point.

The re-establishment of a station at Third street by the railroad company will also be passed up to the state commission.

SUPERVISORS MUST LEVY SCHOOL TAX

The Supreme Court Decides in Favor of the City of Oakland.

(Continued From Page 1)

in the event that the cities levied their own school tax.

Chairman John F. Mullins of the Supervisors has steadily maintained that the board should levy the school tax. In this particular the other members did not agree with him and as the result the matter was passed up to the Supreme court for a final decision.

"We are satisfied with the findings," said Supervisor Murphy today. "It is a case of 'have to be' and we will make the best of it. However, there is still a question as to whether we will have to provide for the additional grounds and expenditures asked by the school boards or whether we must only provide for maintenance of the departments as they are now operating. In that event the school tax would not be so high. The matter will be determined later."

TO FIX RATE.

Chairman Mullins and Supervisor Murphy spent the morning with Deputy District Attorney Leon Clark and County Auditor Garrison, going over the estimated budget. In many instances the amounts asked for have been cut down, and it will not be possible, until a summing up has been made, to give any definite figures as to the rate. There is still a vast amount of work to be done in preparing the figures and even with diligence it is likely that the rate cannot be fixed until Monday afternoon.

The question of allowing the probation committee $50,000 for a new detention home and $900 in salary for Dr. Sarah Shuey as woman examiner at the institution is still being considered by the Supervisors. Rough plans were submitted yesterday by Probation Officer Ruess, following some pertinent questions asked by Supervisor Foss at a recent consultation with the probation committee. Foss desired to know if the amount asked for would cover the entire project or whether it might not fall short and require an additional appropriation. The plans were not satisfactory to the board as they appeared to be inconsistent and for that reason further conferences will be held on the subject Monday.

RATE ESTIMATE TOO LOW.

It has been pointed out by the Supervisors that estimates given to the Civic Association two weeks ago showing that the tax rate could be held down to 60 cents have since been found to be erroneous, and that they should have been about 20 cents higher, a mistake having evidently been made in the figures.

"Assessor Horner admitted that a mistake had been made in the figures," said Supervisor Murphy today. "The impression had gone out through the county that the rate could be made that low, but it will be impossible. It will be nearer 80 cents."

YOUNG ELOPERS RETURN TO VALLEY

Detective Fredericks of Stockton Leaves With Son and Two Girls.

F. H. Fredericks, a detective in the Stockton Police Department, who traced his son, two girls and a second youth to Oakland on an eloping expedition, escorted the runaway boy and the two girls back to Stockton last night. The fate of young Fredericks and Elma Fairbanks, the girl he ran away with, will be decided on the arrival of the party in that city. It has not been decided whether the boy will marry Miss Fairbanks or whether there will be a prosecution on a statutory charge. The second girl, Marguerite Whittmier, has also been taken back to her parents in Stockton. The police have not located young William Hoppe, the boy who came to Oakland with the Whittmier girl.

CHOP SUEY BOWLS HELP TO LOTTERY

Cunning Ah Gim Is Not Smart Enough to Fool the Police.

Ah Gim, convicted by jury of selling lottery tickets at his chop suey joint, at 416 Seventh street, was sentenced to pay a fine of $300 and to spend 15 days in the city prison in addition to paying the fine. The sentence is an unusually heavy one, and was imposed by Judge George Samuels.

It is alleged that Ah Gim kept a special bowl of chow yoke, a bowl of rice and a bowl of noodles for his guests, and that while they looked at the food they marked their lottery tickets. A patrolman entering the place discovered that all the bowls of food were cold, and that the same noodles and chow yoke and chop suey were used time and again.

MILLMAN'S FOOT IS LACERATED BY SAW

Earl Muffley, an employe in the Pacific Lumber Company's planing mill, at the foot of ninth avenue, was the victim of a painful accident this morning, when he caught his foot in a buzz saw. The blade cut deeply into the outer side of his right foot, making it necessary to amputate the little toe. Muffley is 20 years of age and lives at 2124 East Fifteenth street.

Adenoids are a Menace to Children.

Babies and young children must be carefully watched for the growth of adenoids, which spoil the mental and physical life of a child. They usually result from a succession of colds and throat irritations, and their presence is so productive of harm, that many school boards have an examining physician to detect them. The conditions that cause them may be easily avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Drug Department, Kahn's.

SEEKING JUVENILE COURT BUILDING

Almost 100 Organizations Endorse Movement for Structure.

"Nearly 100 organizations have endorsed the probation committee in its demand for a juvenile court building within the last two weeks," said Miss Bessie J. Wood, acting president of the Child's Welfare League, today, "and if the effort had been made to get 150 endorsements they could as easily have been secured. The present juvenile court building is a disgrace to the county, and there is not a particle of doubt that the organized women of the county are unanimously behind the probation committee in its request of the supervisors."

Resolutions in endorsement of the probation committee's request include the Second District of the State Federation of Mothers' Clubs, 40 Alameda county clubs included, Mrs. William T. Blackburn, president; the Alameda District Federation of the California Federation of Women's Clubs, 22 Alameda county clubs included, Mrs. William Colby, president, the Child's Welfare League, 40 or more organizations included; Miss Bessie J. The provision of $60,000 in the budget for a juvenile court building will be finally taken up by the board of supervisors on Monday.

THAW IN FILMS AT THE ORPHEUM

Motion Pictures of the Exciting Scenes Part of Big Vaudeville Bill.

The Orpheum management today received by fast express from New York City motion pictures showing Harry K. Thaw in action during the recent thrilling experiences he has undergone in the Dominion of Canada while striving to escape from American officials who were in pursuit of the young millionaire. The pictures are to be exhibited as a special feature by the Oakland Orpheum tomorrow and throughout the remainder of next week at every performance.

These pictures are among the most expensive ever prepared for theatrical use, the price exacted for them being prohibitive, except where large theater corporations such as the Orpheum Company are concerned. The Oakland Orpheum management announces that these pictures, thrilling and expensive as they unquestionably are, will be a special feature in addition to the great new bill of vaudeville that is promised at the Orpheum on Sunday. The bill includes Blanche Walsh and her company in a new play, besides a host of other new vaudeville fatures.

The question of expense has not been considered in connection with the securing of the Thaw pictures. The pictures are now being shown in New York as a complete entertainment, without any other features being provided, and are drawing enormous crowds, because of their lifelige realism and the international prominence of the persons concerned. At the Orpheum it will be simply an addition to the big vaudeville show.

Harry Thaw's sensational escape from the Matteawan Asylum several weeks ago startle two continents, because of the fame the prisoner had enjoyed and also because of the extraordinary manner in which the escape was affected. Ever since Thaw stepped into a high-power machine and was driven at tremendous speed waay from the Matteawan Asylum, then taken abeard a train for Canada, 100,000,000 people have waited every day for the developments of the story of his flight and final capture in Canada. Millions have read eagerly each day the details of Thaw's battle for freedom in the courts of Canada. Everybody knows of how Jerome, the New York attorney, who conducted the case of the American authorities, sought to bring Thaw under jurisdiction.

The pictures which the Orpheum is to show tomorrow will reveal both Thaw and Jerome and the minor characters on both sides of the struggle in a series of exceptionally interesting events. The courtroom will be shown and the scenes through which Thaw passed before his arrest and afterward.

The Orpheum management believes these remarkable pictures will be the talk of the town, and advice is being given to patrons to make their reservations early, in order to be sure of the choice seats that will be desired.

WILL MUZZLE ALL ALAMEDA CANINES

New Ordinance to Be Effective for One Year From Its Passage.

ALAMEDA, Sept. 13.—Alameda dogs must again submit to the muzzle or remain enclosed for a period of one year from the adoption of the ordinance, and another storm of disapproval is expected by the city council from the fanciers of the various breeds and crosses of the city. The legislation was decided at a meeting of the committee of the whole last evening and was taken on recommendation of the board of health and following several series cases of bites by dogs that were later discovered to be afflicted with rabies.

The latest case and one that brought precipitate action was that of Charles Vaccarezza, a 10-year-old boy, who was badly bitten by a rabid collie dog. The animal was found by the state hygienic laboratory at the University of California to have been so badly afflicted with as to render its bite a cause of sure death. Young Vaccarezza is now undergoing the Pasteur treatment.

The old muzzling ordinance which expired last January 1, created more discussion than any other subject of legislation before or since, but the board of health believes the disease was almost stamped out. Its reappearance has decided the council to extend the period of muzzling from six months to one year, after which if the malady again appears the ordinance will be made permanent.

BOUGHT $35 DOG FOR ACTRESS; IS ARRESTED

PHILADELPHIA, Sept. 13.—Woman's fondness for bulldogs and the particular love of the species harbored by Jennie Allen, blonde vaudeville performer, landed Herman Snavely, 22 years old, of Steelton, Pa., in the central police station.

In Harrisburg Miss Allen fell rapturously in love with a square-jawed terrier in the show windows of one William Shiesley, pet dealer. She didn't know Snavely was broke. And the police have yet to learn whether Snavely knew he was. At any rate he purchased the dog for $35 on a check his bankers refused to redeem.

From Harrisburg Snavely went to his home at Steelton. Jennie and the dog came on to Philadelphia and were arrested at Broad Street station. When Snavely kept his appointment to meet Miss Allen at the home of a friend at Thirty-fifth and Mount Vernon streets he was met instead by Detective Sullivan.

The check book bearing the stub of the bogus check was still in Snavely's pocket when he was searched at the central station. It also held the stubs of other checks, which the police believe are likewise unredeemable, amounting to about $700.

WARM WORDS IN COUNCIL SESSION

The Diversion of Funds to Uncharged Accounts Is Charged.

ALAMEDA, Sept. 13.—Sounding a warning that departments of the city government will not be in a solvent state for four months of each year, Councilman E. B. Bullock last night entered a protest with the committee of the whole against use $5000 surplus in the street fund, as a credit in fixing the coming budget. The plan of the committee is an innovation, it having been found in the charter that all surplus in the street fund must revert to the general fund July 1.

The finance committee, however, has this year again squinted at this mandate of the charter, in that a portion of the surplus has been retained to pay salaries from July 1 to November 1. The surplus that is supposed to pay material bills for this period has been used as an asset in the present budget, having reverted to the general fund July 1.

Both Councilman William Hammond Jr. and Bullock objected last night to such a course. They contended that if the material surplus was reverted that the salary surplus should be similarly handled.

Councilman Frank H. Bartlett defended the action of the committee, saying that in past years illegal acts have been done in not reverting these funds to the general fund. He promised that next year both the salary and material surplus would be reverted, but, he added, the salary fund will be re-reverted from the general fund in order that employes may be paid from July to November.

Councilmen Hammond and Bullock contended that if the salary money was re-reverted that the material money should also be re-reverted, in order that material men will not have to wait four months for their money.

While Councilman Bartlett was making the defense of the action, Councilman Hammond endeavored to interject and Councilman Morgenstern said:

"When Councilman Bartlett is talking, please let him talk."

"This is an attempt to make taxes less," asserted Councilman Hammond. "I can claims can be segregated. You are violating not see, however, how labor and material the law just as you say other councils have done."

Councilman Bullock declared that under his supervision of the finances the city has always been solvent until the first of November of each year, and all bills were paid to that date, no one having to wait for his money.

MORE PROTESTS AGAINST POUND

East End Resident Would Have It Moved to Alameda Corporation Yard.

ALAMEDA, Sept. 13.—F. P. McLellan appeared before the meeting of the council of the whole last night with a further protest against the maintenance of the public pound in the location it now occupies. The protestant pointed out that the building occupies the center of Court street and that the city has no more right to occupy a public street for other than the purposes to which it is dedicated than has any individual.

McLellan proposed that the pound be removed to the corporation yard at the north end of Grand street, regardless of the protests of the people in that vicinity. He declared that the district is essentially a factory section of the city and that as such the protests of the residents should have no weight.

"If I had a boiler shop or pump works I would have little objection to the pound being located near it," he said. McLellan, however, on behalf of the residents of any district into which the building was to be moved, said that the house should be an attractive one and as nearly as possible soundproof.

Council President Alfred Morgenstern assured McLellan that an endeavor was made heretofore to locate the pound on the Grand street site but that there was great objection from the residents in that section.

"In that case," said McLellan, "you should do your duty regardless of the consequences. Decide where you want the pound, put it there and let the people howl. If you decide it should remain where it is I will submit to the general good of the rest of the city."

SALOON KEEPER ALLOWED TO MOVE

May Change Scene of Business if Property Owners Approve.

ALAMEDA, Sept. 13.—E. C. Mills, saloon keeper at Encinal avenue and Walnut street, was last night given permission to remove his place of business to Bay station on the north side of the city, provided he can secure the necessary signatures of people owning property within 600 feet of the proposed location. Mills had an application in at the meeting in which he stated that he did not care to go to the trouble and expense of drawing up the petition and securing signatures unless he had some assurance that the council would grant the request.

There was no opposition from any of the council members to allowing the license to be transferred provided the necessary signatures could be obtained by Mills. Council President Alfred Morgenstern expected opposition and called several times for negative voices when the motion was put. None developed, however.

Further protest against the continuance of the Mills saloon in its present location any other purpose for a saloon or liquor store was shown in a letter from A. D. Cray.

A communication from Mrs. L. N. Worth asking that the council investigate the recent sensation when a girl and two young men were discovered in a lonely hut over the bay, was also received. The letter cited a clubhouse at the foot of Ninth street, but it was reported that the house formerly stood in Neptune Gardens and had since been destroyed by fire.

It shows the trouble the early settlers had with the Indians; it pictures them crossing the plains in their prairie schooners; it shows the Indian attack, which is startling and interesting. It is one of the greatest features ever made. Also two other reels are shown. The pictures are changed every day and in conjunction with the four reels of pictures the Jim Magrath musical girl show presents a very pleasing and interesting comedy. The new show starting Saturday, September 13, is entitled "The Jolly Widow." It takes place in the Moulin Rouge, Paris, France. Izzy and Ikey are seeing the sights. They both fall in love with Fe Fe Cooko, the jolly widow. She puts them through all kinds of trouble which causes roars of laughter. Mr. Magrath, the comedian, presented The Jolly Widow three weeks at the American theater, San Francisco, to an enormous business. The Sweet Sixteen girls are pretty and clever singers and dancers, and their wardrobe is neat and pretty. It is a show seldom seen for the price of admission. It is an endless chain of laughs, given especially for ladies and children. Wednesday nights is devoted to amateur night and Friday night is chorus girl contest night. Three shows are given every day and five shows Sundays.

The Navajo theater takes pleasure in presenting, Sunday, September 14, Darwin Kerr, the idol of the picture world, in the blood curdling classic, "The Pit and the Pendulum." a screen adaptation in three acts containing all the virility and gruesome forcefulness of the great Edgar Allen Poe's most wonderful descriptive narration.

Poe, a genius of strange and melancholy interest, was born in Boston, 1809; before he was 2 years of age his parents died. Later his adopted parents petted and indulged him in every wish. Still [illegible] pulsion from West Point, there came the final breach with Mr. Allen, and all hopes of inheritance were blasted forever. Sensitive, proud, wayward and melancholy, Poe was thus suddenly thrown on the world. One of his saddest defects was a piteous susceptibility to the influence of liquor. In 1849 he was carried away by brain fever, caused by drugging and exposure.

We positively do not recommend "The Pit and the Pendulum" to nervous people. Prices for the above attraction 10 and 5c.

Big Program Is Planned Will Raise Church Fund

Among the features of the benefit theater party which will be given by St. Leo's parish next Tuesday evening in the Oakland Photo theater will be the dancing by Miss Ella Cogan, a tatented girl, whose art has been seen in the bay region. She will give the Spanish dance, Espana. Miss Cogan is a member of St. Leo's church and her dancing will be enjoyed by the members and their friends who are expected to attend. A handsome sum is expected to be realized for the church.

The affair will be the most pretentious yet given by the church. Among the women working for the success of the theater party and who will be in charge of the various bazaar booths are Mrs. Oscar Sutro, Mrs. H. G. White, Mrs. W. I. Clarke, Mrs. D. Waters, Mrs. Hilbourne, Miss Loretta Donnelly, Mrs. Keller, Mrs. A. B. Champion, Mrs. J. W. Crabbe, Mrs. W. H. Roessner, Mrs. H. J. Spencer and Mrs John Francis Smith.

TAXPAYERS' COLUMN

All Communications to the Editor of THE TRIBUNE must bear the signature and address of the writer.

EDITOR TRIBUNE: We welcome Dr. Charis F. Aked, late of England, to citizenship in the United States. It seems, however, that his lately acquired rights have not abated any of his preconceived notions regarding the superiority of English jurisprudence, and of English literature, over those of America, notwithstanding his new political and social relations in the land of his adoption.

Charity constrains us to believe that this state of the mind has not been the result of convictions from a careful study of the facts of the case, by an intelligent and an honest comparison thereof, but is the result of an ancestral weakness, for which Dr. Aked should not be blamed, it having come down through the ages, that determines merit on the basis: "It's English, you know."

It is not my purpose, in this communication, to review Dr. Aked's review of the Diggs-Caminetti case, now before the courts, which furnished the text for the versatile divine to enlarge upon the "farce of American jurisprudence," but to pay respect to his censorship of American literature.

But before entering upon my task, it might be well, kindly, to remind the good Doctor again of the familiar adage: "Those who live in glass houses, should not case stones." And I may be pardoned, therefore, when I assert that on comparison, the "United States" language and literature will be found to be the equal of the "English" language and literature.

And for proof, and for demonstration of my position I would recall the attention of the reader, to the article of Dr. Aked published on page 13 of the San Francisco Examiner of the 3d of September. This fact to be borne in mind: That Dr. Aked is a true exponent of "English as she is spoke."

I fear, however, either that Dr. Aked, or his "English" will suffer humiliation, when I shall have made the review, and instituted the comparison, as suggested by his diatribe in the Examiner of the 3d of September.

Without particularizing, I would say that there occur in Dr. Aked's communication published in the Examiner of the 3d of September, not fewer than 75 ingrammaticisms; or, as our English teacher would say, "Grammatical errors."

I am not absolutely positive as to the exact number of "grammatical errors," but as the preacher said, when corrected for stating that Moses built the ark. "Well, Moses was there at the time, or thereabouts."

I will make the count, however, if Dr. Aked desires, and will prove, even to his own satisfaction, both by the rules of grammar and by the finer exactions of the laws of rhetoric, that when he poses as the teacher of the English to Americans, he would better acquaint himself more fully with Davy Crocket's rule.

Dr. Aked indulges somewhat in superlatives, and in hyperbole, which the master in the English tongue seldom does.

The use of the superlative, in most cases, weakens the language, and evidences a lack of the sanest expression of thought; and it furthermore betrays an intent, or a purpose, upon the part of the writer, or of the speaker, to unduly exalt a person, a circumstance, or a thing, at the expense of the very genius of the language itself.

How does this, from Dr. Aked, sound: "His English was marvelously pure and strong?" Is there anything marvelous about the pure English? Or in the use of it by any one? Who "marvels" at its use, unless, perchance, it be our English censor of the American use of the language? And why should he marvel, since he himself is the exponent of the "marvelously pure and strong," in the English language?

And again, Dr. Aked: "His English was often supremely great." When it is remembered that "supreme" is incomparable, the reader will at once see, that the writer spoken of had attained the very acme of perfection in the art and in the use of the language he used. Indeed, he was guilty of performing a work of literary supererogation.

Now, one word as to Dr. Aked's criticism of the bar, and it will have been developed that he contradicts himself, in his effort to belittle the American lawyer.

Says Dr. Aked: "I am very far from suggesting that any one of the men employed in the Caminetti case, is deliberately wasting time, is deliberately dragging the case on for the sake of the fees, is deliberately trying to win by a trick."

And now, having forgotten what he had just said, he declares: "A criminal trial is a game, in which each party tries to win by a trick."

And mind, all this is said of American lawyers, in contradistinction to the disciples of Kant and Blackstone, on the other side of the Atlantic.

And now comes the unkindest cut of all. It is a final thrust at the judiciary. It strikes below the belt. It truly makes a "farce" of the whole business, and bids all Americans having questions to settle, to appeal their cases to the English crown for adjudication.

But I am reminded that this same request was made of [illegible] and at "appealed" to the higher court; and Lexington and Bunker Hill and Yorktown, and later, New Orleans, became the shibboleth of American independence in all things, in literature and in law, as well, and from that day to this, we have been "able to tote our own skillet."

But hear Dr. Aked on the American judge, on the California judge: "The main function of a judge in an American court, is to act as a referee in a sparring match between counsel."

Shades of Marshall and of the long line of illustrious names, that have adorned and magnified and glorified [illegible] American bench, in the more than 100 years of splendid achievement in the interpretation and in the enforcement of constitutional law, based upon equal rights to all, special privileges to none.

And now, but tell it not in Goth, publish it not in the streets of Askelon, our censor, and good brother, Aked leaves the Diggs-Caminetti case, quits his criticism of American lawyers and of American courts, stops short in his discussion of literature, and gives us a page from American history, and gravely and sagely informs us, that in our judicial life we have been "following an outrageously bad system inherited from England 300 years ago, and persisted in long after England and other civilized nations have abandoned it."

This will be news to most of us "Yankees," when it is remembered that the actual supremacy and rule of England in America dates after Wolfe's victory over the French at the battle of the Heights of Abraham, and that the initial life of the "United States" began with the signing of the Declaration of Independence in 1776. Shade of Gibbon! Dr. Aked is a better histrionic writer, than he is a historio writer. He wrote a clever account of the "Mission Play," but when he came to write of American history, he demonstrated a pitiable lack of knowledge.

And who, but Dr. Aked, would have had the temerity, to call American jurisprudence a "farce;" that American lawyers seek to win by a "trick;" that the American judge is only a "referee between sparring counsel;" and what would "make even an Englishman laugh," instruct an American judge beforehand, as to the quality and the decree of the penalty should be pronounced from the bench, in the rightful exercise of judicial prerogative"

EDITOR TRIBUNE: Why Oakland politicians want county to include school tax:

Oakland city taxes, including schools and bonds, 1907, $1.31, less school, $1.08; Oakland city taxes, including schools and bonds, 1908, $1.27, less school .99; Oakland city taxes, school tax shifted to county, 1909, $1.26, Oakland city taxes, school tax shifted to county, 1910, $1.39; Oakland city taxes, school tax shifted to county, 1911, $1.98; Oakland city taxes, school tax shifted to county, 1912, $1.75.

From the above it will be seen at a glance that the taxes for city purposes, outside of the levy for schools, has gone from .99 cents to $1.75 since 1908, or within five years. These are facts that you can verify and publish without my signature.

POINTS BENEFICIAL MORAL.

EDITOR TRIBUNE: While reading in yesterday's TRIBUNE, in regard to a protest against a funeral parlor, I thought to ask you if you will please permit me to express my surprise through the valuable columns of THE TRIBUNE. Not being myself a man of the cloth yet it is my firm belief that an undertaking parlor is the most appropriate place near churches. What could be a more beneficial moral teaching from the lips of the gentlemen of the cloth who occupy pulpits to the ears and hearts of their flocks than to point to them and say: "There is a funeral parlor." And more than all, the protest of the First Hebrew Congregation surprises me. The venerable rabbi should know the advice of Solomon, "It is better to go to the house of mourning than to go to house of feasting," etc. Ecclesiastes VII-21.

4-YEAR-OLD HERO IS KILLED BY TRAIN

CUMBERLAND, Md., Sept. 13.—Train No. 4 on the local branch of the Baltimore and Ohio railroad, known as the Pittsburg flyer, struck and killed James Dennen, aged four years, at Coultersville station, near Morgantown, W. Va.

The lad with his two little sisters was playing on the track, and the boy, seeing the approaching train, started to remove his sisters from danger. Just as he was carrying his second sister from the track he stumbled and fell. He was struck by the pilot of the locomotive and hurled 60 feet. Death was instantaneous.

ic Ownership of Street Railways.

nicipal ownership of utilities, especially local utilities, is ble in this country. It is the only remedy for aggravating the only solution of the problem of measuring public by the needs of the community. Public ownership has profitable and popular in Great Britain and it has been extended there.

ere is no reason why the same results should not be achieved There is no reason why the policy should not be inaugurated by the cities on the Alameda shore. A good beginning can e by acquiring the lines of the Oakland Traction Company, joint use and profit of the several communities served by ...poration. The time is ripe and public sentiment sanctions nerefore THE TRIBUNE endorses without qualification the ... to the acquisition of the street railway system and the sus- ... of paving work on streets traversed by the lines of the ...d Traction Company. With the policy of municipal owner- of public utilities THE TRIBUNE is in entire sympathy.

Oakland street railroad building has been entirely sus- ... the Oakland Traction Company frankly stating that it not intend to build any more lines until the municipal char- amended. We are therefore confronted with the alternative nding the charter at the bidding of a private corporation quiring the property and operating it for the benefit and enience of those whom it serves; provided we are unwilling ept the situation as it stands, trying to develop as best we without improving and extending our transit facilities. We ... compel the Traction Company to build any more lines or ... its service into the growing suburbs. If we want this ... and everybody admits that it should be done, we must do ...elves.

nviously the only recourse is for Oakland, Berkeley, Alameda the other towns embraced in the one-fare territory to com- and acquire the traction lines as a joint utility. Where 's a will there's a way. A rapid transit district can be ..., as has been suggested, and a commission selected to ...ge the street railway system on joint account. That is what ... be done. The preliminary steps should be taken now, so the next Legislature can pass an enabling act.

ne people should own and control the street railway system ... serves them. Otherwise they cannot get satisfactory ser- or compliance with conditions indispensable to municipal ress. Let us get together and agree upon a plan of action, then go ahead. No private corporation should be permitted ...ck the growth of the city for any reason. Our interurban ... facilities will never reach the desired state of efficiency the people own and control them.

ne Republican party is coming back in Pennsylvania also. ...trations in Philadelphia show that the Republican voters umber the Democrats and Progressives combined. Last No- ... the Progressives carried the State with the Democrats ...—the Democrats are still second. But if the citizens vote hey register, the Republicans are at the head of the proces- and the Progressives at the tail. The voters are coming to ... that it is not necessary to elect Bill Flinn to get rid of Bois ose. They want better timber in the Senate than Penrose or ... and can get it without abandoning the Republican party ollow the broken serving men of Matt Quay.

Maine voted on the tariff bill before the Senate did, and has credit of voicing public opinion throughout the country re- ...ng that measure.

...d of the Fox Rabies.

The ridiculous row over the appointment of Tom Fox, who appointed postmaster of Sacramento, has ended with the ...mation of Fox by an overwhelming vote. For months Fox's ...mation was held up on the strength of a variety of vague unsubstantial charges which did not affect his personal in- ...ity or capacity to fill the office. The charges finally sim- ...d down to the allegation that he is a machine politician. ... is and has been for years active in the Democratic organiza- ..., called a leader by his friends and a boss by his enemies.

However, the great pother made over his appointment was ...ly absurd. A mountain was made of a mole hill. A Demo- ... administration was asked to turn Fox down because he ... been an active party worker. Mr. Rudolph Spreckels, who never professed to be a Democrat and who does not claim to one now, told the Democrats of the Senate committee that the ...ocrats could never hope to win another election if Fox was ...med.

How ridiculous! The State at large is not interested in the ...amento postmastership, and there is no reason for people ...elling in other communities to get excited about a purely local ...cal quarrel, which assumed an opera bouffe character when grounds of complaint were stated at Washington. The only ...est that Californians in general had in this petty controversy the ridicule it brought on the State. It made people laugh ...alifornia; it showed us as absurdly contentious, squabbling children over a petty local matter and making a political ...ard of a rather engaging individual who has shown himself ...t in the politics of his county.

...e are glad the matter ended as it did, for the fun had died ... was too small a matter to be taken up as a national or ...state issue. In the second place, the question of honesty ...ability was entirely obscured by factious contention of a ...kind. Fox made a good postmaster once before. There is ... to believe that he will be less satisfactory in the office ... we are glad this tempest in a teapot has blown

CONCERNING PERSONS

Walter Kilroy Harris, 23 years of age, has the distinction of having achieved the longest overland journey ever attempted in Australia with a single horse, an account of which he gives in his book, "Outback in Australia." The journeys include a 1700 mile cattle droving trip in the far western parts of Queensland and New South Wales, and a 2400 mile drive with a younger brother in a one horse "sulky," a two wheeled buggy drawn throughout by "a low bodied, thick legged 7-year-old bay pony mare." He found the people most hospitable His expense bill amounted to 1 shilling (24 cents) for horse feed and 6 pence for bread for the journey from Melbourne to Adelaide, 500 miles, while from Adelaide to Newcastle—a six weeks' trip of 1100 miles—rations cost 28 cents for the horse and absolutely nothing for the two brothers!

Byron had strange habits with regard to food "Don Juan" was written largely upon gin and water and on other occasions he lived for weeks on six biscuits a day, often fasting entirely for forty-eight hours One slice of bread for breakfast and a vegetable dinner kept him going in 1816, though at times he had to chew tobacco to keep down his hunger. Vinegar and water and a little rice was another of his experimental diets. But he had his moments of indulgence and Moore tells of a supper at which he ate three lobsters and washed them down with half a dozen glasses of strong brandy.

Like many other great men, Pasteur was absent-minded. Eating some cherries at a dinner party to which he was invited, he was observed to dip each cherry in a glass of water and carefully wipe it before placing it in his mouth On his neighbor's uttering some comment on this precaution, Pasteur held forth at considerable length as to the dangerous microbes with which cherries are invariably covered. When he had finished talking he picked up the glass he had washtd the fruit in and drank the contents—microbes and all.—Chicago News

STORIES OF PLACES

It is the habit of the blackcock to strut and fight with his rivals in an open arena, while the gray hens sit round as queens of the tournament. The Russia sportsman builds a rough hut of boughs right on the spot, which does not seem to scare the birds Then he sleeps there and waits till the tournament begins in the morning, when he may blaze away at any of the cocks except the old one, whose death causes the spot to be deserted. An English traveler in Russia says that he knew of Russians who had shot five or six cocks at one place several mornings running, but, having bagged one himself, he never had the heart to kill another.

There was a hermit in the center of London only a few years ago, according to the London Chronicle. His hermitage consisted of a cellar—the only vestige of a house in Clare market pulled down and forgotten by its owners. He lived there for a long time, supported by scraps of food from the tradesmen of the neighborhood, and might have lived there longer still if a journalist had not "discovered" him. He was interviewed and photographed to death; for the workhouse authorities, nearly next door who had hitherto turned a blind eye toward him, was compelled to oust him from his hermitage and make him clean and respectable—a process to which he succumbed.

Archibald Colquhoun relates that there is a strong prejudice in Nicaragua against bathing, and even washing while on a journey and for some days afterward. The dust is not washed off the face for some days after arrival especially if the traveler has come from the 'tirras calientos' (hot country, or lower region), for a too sudden opening of the pores of the skin will crtainly produce fever, according to popular belief The people of Nicaragua according to Squier, 'are generally scrupulously clean in their persons, except when traveling, and then the use of water is prohibited'"

LISTEN MOTHER, DO BE CAREFUL

If Child Is Cross, Constipated, Sick, Give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food pass out of the bowels and you have a well and playful child again. Children love this harmless fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow. But get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grownups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

OROVILLE, Sept. 13.—Standing in the middle of the track, lashing his tail from side to side and giving forth blood-curdling screams a big mountain lion defied a Western Pacific train near Tobin Wednesday night.

With one last roar it leaped clear of the tracks and slunk into the darkness.

Hollenbeck Here Praises Oakland

J. G. HOLLENBECK.

Bringing with him many plans for the development of the western territory of his railroad, J. G. Hollenbeck, general passenger agent of the Missouri Pacific and the Western Pacific, arrived in Oakland yesterday from St. Louis on his first Western tour of inspection since the taking office with the new administration of the roads. Hollenbeck was enthusiastic over the possibilities of California, over the climate and over Oakland. He will remain here two three days before proceeding south. In all, he will be in California two weeks.

"My trip is principally one of inspection," he declared. "I expect great things of California. The railroad has established no less than forty new Eastern agencies, and now I am here to see what we can do in the West. We want to develop this western territory. Also, I am making this trip to urge all our men to work in harmony and for one common cause.

"This city is beautiful, and the climate is wonderful. I greatly admire the new Hotel Oakland, too, and have promised Mr. Reiter, the manager, that I will have the hotel literature distributed through the East. I have also gotten into touch with Mr. Caine of the Commercial club, and will co-operate with him in boosting your city in the East when I return. The Western Pacific wants to boost Oakland.

Hollenbeck yesterday met a number of prominent business men, and paid several high compliments to the city, its buildings and its streets. He declared that his trip here is one of combined inspection and pleasure, and that he would long remember his western visit. His headquarters are in St. Louis.

LIBRARY PLANS ARE DISCUSSED

Albany Civic Organization Will Urge More Funds for the Work.

ALBANY, Sept. 12.—The various civic organizations of Albany are taking great interest in the proposed public library for this town. The Albany Civic League at its meeting two weeks ago instructed its secretary to address the board of supervisors in support of the request of Mr. Green of the county library, asking for an increased appropriation, and the Albany Improvement Club petitioned the local board of trustees at its meeting on Wednesday evening to take steps looking toward the establishment of such a branch.

A public meeting held last evening under the auspices of the Civic League in the assembly room of the public school building was addressed by Charles A. Green, who discussed the question at length.

According to Green, the Oakland Library has already 16 branches in Alameda county, to which it sends from 50 to 100 books every two or three months, and which it further supplies with current magazines and other periodicals. For this purpose the board of supervisors of the county last year appropriated $15,000, and the board has been asked this year to increase this amount by $3000, in order to make possible an extension of the work.

TELLS OF MOVE.

Green gave a history of the free library movement in the country, and particularly in California, where one-half the State is now covered under the provisions of the county library law, passed by the legislature four years ago. Miss Jean Baird spoke briefly, supplementing the address of Mr. Green.

An address on the aims and methods of the California Civic League was given by Miss Anita Whitney, president of the State organization. Miss Whitney described the California Civic League as "the most democratic institution in the world," and named "co-operaton in service, study and publicity" as its watchword. Miss Whitney urged that in the discussion of any public issue both sides should have a hearing. The State president pointed out the local league might ally itself with the larger organization.

The league directed the president to appoint a committee which should consider and report on the proposed utility district for the taking over of the street car system, and to invite some one to present the matter to the league at the meeting next Thursday evening.

LATEST NEWS FROM CITY OF RICHMOND

RICHMOND HOLDS BOOSTERS' FEAST

Big Get-together Meet of the Sequoia Club Enthuses All for Great Effort.

RICHMOND, Sept. 13.—The first banquet of the Sequoia Commercial club since its consolidation with the board of trade took place last night at Grand canyon park chateau, where seventy-five men gathered round the table, made short boost talks, enthused each other and feasted and enjoyed a social time until midnight. H. H. Turley, secretary of the club, attended to the details of the occasion, with the help of a competent committee, and Major D. W. McLaughlin presided as toastmaster in his usual happy style. It was an enthusiastic and almost hilarious meeting from start to finish, the menu was all that the most fastidious could ask for and the addresses met with hearty welcome and applause.

IN GOOD CAUSE.

At 8 o'clock the club members met at Sequoia hall and then went in autos to the chateau, where floral decorations, food and wine was on hand in generous quantities. The object was to bring general boosting and work for the upbuilding and betterment of Richmond up to a top notch of enthusiasm, and the object was accomplished.

The list of speakers included Joseph Caines, secretary of the Oakland Commercial club; Robert Cave, lecturer for the California development board at San Francisco; Supervisor Warren H. McBride of Pinole; James T. Farley, of the Oakland chamber of commerce; D. A. Knowles, ex-secretary of the local board of trade; O. S. Jackson, secretary of the Point Richmond Commercial club; Senator J. C. Owens, D. W. McLoughlin and several others.

MUCH ENTHUSIASM.

The speeches made by the visitors from Oakland and San Francisco were especially interesting and called forth loud applause from the banqueters, as did also the remarks of Supervisor McBride of Pinole.

Cave spoke along general lines, not being acquainted with local conditions, and showed the advisability of co-operation on the part of all California cities and their representative civic bodies. Caines dwelt upon the subject of commercial clubs and the good they had and could accomplish, stating that in the case of Richmond it was not necessary to stretch the truth as the plain facts were already of a nature to be almost beyond belief.

GOOD ENTERTAINMENT.

Farley was voted the prize entertainer of the evening, interspersing his remarks with poetry and songs, after each of which the crowd clamored for more. Supervisor McBride took up the question of the state highway, handling the subject ably, and at the conclusion of his remarks a resolution was passed calling upon the county commissioners to take up the question of the state bonds to be purchased and endeavor to arrange for this county to take its share of them in order to obtain the highway.

O. S. Jackson took up the question of public parks and handled it in a masterly manner, advising immediate action on the part of the city, a sentiment heartily seconded by the entire gathering. The other speakers talked on general boost lines, and altogether it was really the best meeting of the kind ever held in Richmond, without exception.

The growth of the city and its present an dfuture welfare and prosperity was plainly evidenced at this gathering by these representative men and what they had to say in regard to it.

WATER PROJECT IS MAKING PROGRESS

Richmond Directors Want the Plans for Piping San Joaquin Supply.

RICHMOND, Sept. 13.—Whether a committee should be appointed by the chair to investigate the actual cost of the proposed San Joaquin water supply for the system which the Richmond municipal water district is planning to build, or whether the matter should be left up to the engineers of the board, was a question which for atime divided the directors at their meeting inthe city hall and brought forth a spirited discussion.

The result was the adoption of a resolution instructing the engineers to prepare a report as to the feasibility of the San Joaquin project, with data as to cost, size of plant, pipe line and other details that would be a part of a building of the system to bring water to this city from the big river near Antioch.

Engineer Tibbitts stated that the engineers could have a comprehensive report ready to submit to the board in three weeks, and he was therefore instructed to get busy and do it, as the board favors the San Joaquin river project more than any other yet discussed or offered and are anxious for completed data in regard to it sa they can proceed to put the whole matter up to the voters for a decision.

It is said that this project, if carried out, is going to be expensive, and one that will necessitate the co-operation of all the waterfront towns from Richmond to Antioch, but it is now known that this co-operation can be secured and the project put through as far as that is concerned if the engineers report that it is entirely feasible. Pinole, Crockett, Martinez and other townsalong the shore north and east of Richmond have signified their willingness to go into the plan and help create one large water district which will furnish a supply of good water in sufficient quantity to all.

RICHMOND NOTES

RICHMOND, Sept. 13. — The Peoples Water Company has decided that it will not establish an east-side office here, much to the disappointment of its local patrons, who have to travel two miles to pay their water bills on the west side of the city. RITZMAN HELD FOR SHOOTING OF WOMAN

SANTA ROSA, Sept. 13. — John Ritzman, who fired two shots at Mrs. Rosa Bell of San Francisco at her ranch near Glen Ellen last week, was given a preliminary examination in Justice Patimer's court here yesterday afternoon, and held for trial in the Superior Court on a charge of assault with intent to commit murder.

Mrs. Bell testified that she called Ritzman's attention to poor work he had done in the construction of a cottage. When she walked away, she said, he followed her, and his manner was so threatening that she took up a stick.

He ran ahead, and reaching into has carpenter's apron, drew a revolver. The weapon caught in the side of the apron and the first shot went wild. Ritzman fired again just as a hired man standing near struck him on the head with a water pitcher and felled him.

SAILOR ROBBED OF EARNINGS ON FRONT

SAN FRANCISCO, Sept. 13.—Plied with liquor by two men whom he encountered while walking along the waterfront early today, H. Lorenson, a salmon packet sailor, was robbed of $400. The money constituted all of his savings from a season's work at the Alaska canneries. He returned here Thursday night from his trip to the north and had his money concealed in a belt on his person. The robbers evidently knew its hiding place and, after getting their victim intoxicated, succeeded in stealing his coin. Lorenson could furnish no description of the culprits.

TWO KILLED BY TRAIN CRASHING INTO WAGON

PARKERSBURG, Iowa, Sept. 13.—George Penelton and Miss Clarice Savage, a school teacher, were instantly killed yesterday by a Chicago Northwestern train three miles east of here. They were riding in a lumber wagon. Miss Savage had started to walk home after school when Penelton offered her a ride.

'DEBAUCHERY' OF WINE IS FOUGHT

Dr. Wiley Makes Appeal for the Purity of Grape Product.

WASHINGTON, Sept. 13.—Wine—pure wine—is to be a thing of the past under the pending tariff bill, in the opinion of Dr. Harvey W. Wiley, former chief chemist for the government. In an appeal published today he calls to arms all the patrons of all the lobster palaces of all the big cities, as well as those who value wine for wine's sake, to join in battle against the Senate change that, in his opinion, would permit adulteration of fermented grape juice.

"Let the people who are interested in the purity of products," he appeals, "immediately protest against this outrageous attempt to debauch the wines of this country."

The objection of Dr. Wiley is based on the provision that permits the addition, "before, during or after fermentation," of sugar, grape must or water, not to exceed 20 per cent of the total of pure fermented grape juice. This, Dr. Wiley contends, lets down the bars to all descriptions of adulteration, as no one can tell the original quantity of original fermented grape juice after the adulterations have been added.

"It only remains now," says Dr. Wiley scornfully, "for the Senate to define whisky as an alcoholic beverage, made of neutral spirits, burnt sugar and synthetic flavors, and beer as a beverage made of any old thing that will ferment and embittered with anything that is bitter, from capsicum to aloes, to complete the debasement of American beverages."

DEPUTY SURVEYOR OUT OF CUSTOMS SERVICE

SAN FRANCISCO, Sept. 13.—Charles A. Stephens, deputy surveyor of the port, handed in his resignation to the Surveyor of the Port, Justus S. Wardell, yesterday. It was promptly accepted.

Stephens has been deputy surveyor for eighteen months and has served as boarding officer. He has been in the government service twenty years and has won a splendid reputation for his performance of duties. His resignation was requested several days ago by Surveyor Wardell on account of lack of harmony.

Wardell has not announced who will succeed Stephens. Charles Cook, chief clerk, held this position before. The post pays a salary of $2700 a year and was cut down from $3400 several years ago. Wardell may make a test case out of it and appoint some one who is not on the civil service list, but this step has not yet been definitely settled.

WOULD KEEP ON LID.

VISALIA, Sept. 13.—Declaring that greater degree of prosperity has been enjoyed since the various cities of the county went dry, members of the W. C. T. U. yesterday went on record as favoring the immediate mobilization of their forces to prevent any attempt to take off the lid at the next election. They elected delegates to the state convention to be held in Santa Cruz next month and decided to organize a class in eugenics. They protested against what they described as the "vulgar" attractions of certain carnival companies which have been allowed to show in the city, and suggested various social reforms.

BROTHERS CONFESSED, SHERIFF DECLARES

VISALIA, Sept. 13.—Elta and Claud Stokes, recently arrested for the theft of cattle from the Huntley ranch, have made a complete confession, according to Sheriff Collins, who took the two men before Judge Bagby, where they expressed their desire to be taken at once into the Superior Court to receive their sentence.

The brothers were taken to jail in default of $5000 bail.

Assemblyman Giberson of Corcoran, who bought the cattle from the Stokes brothers, was present at the hearing and at its conclusion received back $250 of the $700 he had paid for the stock. The animals had previously been returned to the Huntley brothers' place near Goshen station.

INVITATIONS OUT FOR Y. W. C. A. GROUND-BREAKING.

A card has been received by many prominent families in our city in which

"The Young Women's Christian Association of Oakland cordially invites you to be present at the Breaking of Ground for the new Administration Building on Tuesday, September 16, at twelve o'clock noon, Fifteenth and Webster streets."

The event will mark an era in the history of woman's effort in our city; it is their contribution to the great forward movement of modern times. It is a magnificent building designed by one of the most noted architects in our country—one of whose achievements all our women are most justly proud—Miss Julia Morgan.

TO HONOR MRS. HARRY EAST MILLER.

Mrs. Harrison Clay has sent out cards for an "at home" in honor of her sister, Mrs. Harry East Miller (Myra Prather). Mr. and Mrs. Miller are planning a trip abroad, and they will leave for the East and Europe in the near future.

Both Mrs. Miller and Mrs. Clay are very popular young matrons, with hosts of friends, and the farewell "at home" for Mrs. Miller will be one of the most delightful of the September dates. It is sure to be a large affair, for Mrs. Clay's invitation list is a long one, since the Prather family is one of the most influential and best known on our side of the bay.

...CIATION TRAVEL FAR AND FREQUENTLY.

The spirit of travel seems to abide with the average Californian, for he is to be found in every part of the globe. Distances never mean anything to him, for a little trip to the Islands, or a vacation to the Orient, is quite in the order of things. Many families go East each year and a trip across the continent is part of the education of many young people.

Mr. and Mrs. C. O. G. Miller are planning to leave soon for an extended trip East. The C. O. G. Millers will place their daughter, Miss Leslie Miller, in school in New York. Miss Flora Miller, who was threatened with typhoid fever this summer, has entirely recovered.

Consul and Madame Etienne Lanel (Amy McKee) have arrived in New York, after a summer spent on this coast. They were guests while here of Mrs. Lanel's mother, Mrs. S. B. McKee, and while at Tahoe they were guests of Mrs. Spens Black, Mrs. Leslie's sister. On their way East the Lanels stopped at Santa Barbara, where they were the guests of Mrs. William Henshaw. The home of the Lanels is in New York, as Mr. Lanel is the French Consul there, and their time is spent there and in France.

Mr. and Mrs. Tyler Henshaw (Irene O'Connor) are enjoying an extended wedding trip in the north. They have traveled all through Washington and were recently in Portland. On their return to California they will make their home in San Francisco, where Mr. Henshaw has already entered upon his professional career.

Among those who took great interest in the recent pageant of the Native Sons were Congressman and Mrs. Joseph R. Knowland, who are very popular in their own city and state. Mrs. Knowland is from the south and she has all the rare charm and sweet personality which so often distinguishes Southern women. Congressman Knowland is planning to return in the very near future to Washington, but Mrs. Knowland will remain here until September. Miss Eleanor Knowland may be one of the debutantes of the coming winter. She is a very studious girl, a graduate of Snell Seminary, and she is planning this year to take a course at the University of California.

Mr. and Mrs. Henry Taylor closed for the summer their handsome home at Claremont, and they have been spending the season in their summer home on the Atlantic seaboard.

Their daughter, Miss Bernice Taylor, has been very ill this summer, but good news continues to reach her friends of her steady improvement.

NORRIS FAMILY ARE AT BOLINAS BAY.

Mr. and Mrs. Joseph Norris and the latter's daughter, pretty Miss Elisa McMullin, are spending early autumn days at Bolinas, where they have taken a picturesque cottage for the month.

Miss McMullin recently returned from Europe, where she spent the summer traveling with her cousin, Mrs. Carr. Her brother, John McMullin, is still abroad, where he is devoting himself to the study of architecture.

Ex-Mayor James D. Phelan of San Francisco, who has been motoring in Southern Germany and the Tyrol, has left Munich for Italy en route to Madrid, where he will attend the four hundredth anniversary celebration of the discovery of the Pacific ocean by Balboa, on September 25. The celebration, in which King Alfonso is taking a lively interest, will be attended by many distinguished foreigners in...cluding Latin-American delegations.

The day of the garden party has gone by, now that September is here, and in the East, which bravely leads the way in affairs of the smart set, the orchard party is just arriving. All through September, and well into October, the orchard parties are to be given in the East, and enterprising hostesses near the bay will be sure to follow in the delightful entertainment which "an orchard party" suggests. The place for this kind of party is of course, the orchard—one's own—or somebody else's—if one can beg, borrow, or steal one. One way is to have a tea, or an old fashioned "sit down supper"—served on tables placed under loaded apple or peach boughs.

Cards for a successful party announced that a hostess who was always planning delightful surprises would be at home in her orchard from 5 to 8. The orchard was strung with big Japanese lanterns, which were lit as dusk was falling. On the edges of the orchard two or three bonfires were lighted, and were replenished by the small boys of the family—who, by the way, were delighted with the idea of a tea where they would not be in the way.

The hostess received on a rug spread at the entrance to the orchard, and after greeting her the guests wandered at will under the trees, ...cold, taking part in archery contests—arranged safely out of range—if they felt energetic, simply sitting about the trees and listening to the music from a harp and violin if they felt inclined to do so.

Apropos of clothes, the great Poiret of Paris is coming to America, and he may come even as far west as "the coast."

M. Poiret will sail on the Provence, accompanied by his wife, whose trousseau, especially prepared for the occasion, comprises 100 of the finest dresses her husband has ever designed. It is a record-breaking collection, for never before has a woman taken to America for her personal wear so many costly original gowns.

The entire staff of M. Poiret's business is now concentrating on the task of completing this outfit of dresses, ...every one of which contains some new feature. Twenty huge trunks will be necessary to transport them to New York.

M. Poiret is enthusiastic over the new dances, and thinks the "Tango" and Brazilian "Matchiche" the finest means of exhibiting woman's gracefulness.

His latest ideas of ...ing have just materialized in a dining room in his own house, where he gave a "Tango dinner" this week. The main idea was to decorate the room so as to give the impression that the table was set, not between four walls, but among the loveliest pastoral surroundings. The carpet was an exact representation of fine turf and the walls were covered with trellis work supporting creepers, grapevines, etc., which, skillfully joined at the ceiling, completed the illusion of an Old-World garden.

The dining room opened on a balcony on which Mr. and Mrs. Vernon Castle, Mrs. Duque, Raphael, the Spanish Tango dancer, and other stars danced the most intricate South American steps to the subdued tones of a hidden orchestra.

Very fashionable women are having now what is called "the tango frock"—since there is much dancing now at afternoon teas in the large hotels.

Red tones—old rose, coral, and geranium—are exceedingly fashionable. A costume of these colors is not becoming to the average woman, but in trimmings they brighten up neutral tones and add a piquant note to the toilet by a bow or flower. A vivid blue, almost purplish in hue, and emerald green are also favored.

Since one's friends have spent so much time in the shops lately, it is interesting to know some of their discoveries, many of which have been appropriated, so that one's friends at present move one to all degrees of mirth. Later we may gaze upon them with admiration, as we have learned to do in the matter of small hats and tight gowns.

One thing is absolutely certain, the huge waist line and the narrow foot line are universally accepted on every side. The waist line is as large as the hip line, and the shoulders and back are not narrow, but exceedingly broad. So universal is the flaring tunic, that the straight up and down gown looks old fashioned.

The new sleeves have no armholes, and, as they are cut as a part of the bodice, they have the appearance of not touching the body. They fall from the shoulders in huge folds and are sometimes fitted to the wrist or held in below the elbow with a large cuff.

The colors in the new gowns are quite attractive and only startling in spots. The general idea is sedate and artistic. Blue is revived for house wear; it is difficult to describe the shade used; it is deep as sapphire, but has a gray tone that reminds one of Natier blue. There is nothing turquois about it. It seems to be brushed over with a misty tone of gray, and in velvet it is exceptionally lovely.

There seems no end to the use of roses in the new gowns. They are large and small, of satin and velvet and silk. They are natural and unnatural. The majority of the small ones are made in the French fashion, after the manner employed for adorning picture frames. They are often connected with a trelliswork of gold or silver bullion, and they are rarely in brilliant colors.

Whether of blue, or pink, or red, or yellow, they are invariably faded. The leaves also look dusty.

On evening gowns the roses are huge and the leaves are large and dominant. They seem to be used in the back, instead of the front, and one can imagine their appearance after having been sat upon for two hours at an opera or a dinner.

Of course we will all wear roses, that goes without saying. We live in the lovely land of roses, and nothing could be more appropriate for us, than roses, as the trimming of the hour. One will find them worn also ...the rosebud garden of girls.

Mrs. C. C. Clay left yesterday for the East, and she is planning to spend some autumn days with her daughter, Mrs. Harden Crawford, who with her family is still at her country home, Seabright, on the New Jersey coast. Mrs. Clay will sail for Europe this autumn, having planned an interesting tour of the world. She will be away several months, and during her absence Level Lea will be closed.

Mrs. Blanche Boardman and her little daughter, Florence, are spending the summer and the early autumn in New Rochelle, on the Long Island coast. Mrs. Boardman has with her, her mother, Mrs. Walker, and her sister, Miss Walker, who has made a remarkably fine record in the medical department of Cornell University.

Mrs. Boardman and her relatives have had a very delightful time at New Rochelle—their home there being one of the most picturesque on the Sound. It has been the center of much entertainment this summer.

Mrs. Boardman, and her daughter, bright little Miss Florence Boardman, will spend the coming season in New York.

PICTURES IN THE MEDDLER.

One of the most charming girls in the exclusive circles of the smart set in east bay circles and the Greenway set is Miss Marie Louise Tyson. Miss Tyson attended Miss Head's in Berkeley and a fashionable school in the East. She is one of our most accomplished debutantes and her beauty has not spoiled her in the least. At present she is with her mother, Mrs. George Tyson, at their country place in Saratoga and will not return to her home in Alameda until the first of next month.

Another charming matron in east bay circles who has left for an extended tour of Europe, is Mrs. L. D. Fillius. Mrs. Fillius was accompanied by her two lovely daughter, Miss Marion, who will continue her study of music and the languages abroad, and Miss Ruth, who is a sweet little girl not yet in her teens. Miss Marion recently returned from Pasadena with her mother, where they have spent last winter, while Miss Marion completed her school course at a fashionable girls school in the south. Mrs. Fillius, who has been in mourning for the past year or so, has not taken an active part in social circles for some time, but it is expected that she will enter into the season's activities on her return from abroad.

Miss Alice Davies, whose picture appears in today's Meddler, is another of our younger set who is extremely talented along musical lines, especially with the violin.

Another debutante who will make her debut this season is Miss Helen Hendricks, who graduated in the June class from Miss Hamlin's. Many of the girls are now planning to continue their studies in the east at fininshing schools or the large universities.

BOYS SEEK ADVENTURE; "LICKING" IS REWARD

PORTERVILLE, Sept. 13.—Evidently seized with a spirit of adventure, Jack Byers, aged 7, and Jack Lannum, aged 2, drove off from this city in a horse and buggy belonging to W. S. Nave, a suburban district rancher, after they were chased by the officers to Success, several miles east of here on the Tule river.

Nave reported the loss of his rig and while a search was being made two excited ranchers of Upper Tule telephoned the police that two little boys were driving madly down the Springfield road at a pace which would kill their horse. A chase by auto followed and the youthful adventurers were returned home.

In the Juvenile Court yesterday parents of both lads assured Judge Hall that their young hopefuls had been "promptly 'tended to," and as the culprits' appearance bore out the statement, they were allowed to go.

KEEPS YOUNG WIFE LOCKED IN ROOM WHILE HE WORKS

KANSAS CITY, Mo., Sept. 13.—A. W. Giles, a teamster, 41 years old, was so jealous of his 17-year-old wife that he kept her locked up in his one-room home while he was at work by day, and usually beat her when he came home at night, according to the young wife's testimony in the Northside Municipal Court.

Growing tired of seeing the wife abused, neighbors last night raised a mob, and when Giles started the evening beating more than 100 men, women and boys surrounded his home with cries of "lynch him." A squad of police dispersed the mob and arrested Giles. He was fined $200 today and the girl wife made a ward of the Juvenile Court.

DRESS IS A FACTOR TO VICE
PHYSICIAN POINTS TO REASON

Styles Are Set by Demi-monde of Paris, He Says

COLORADO SPRINGS, Colo., Sept. 13.—Dr. J. H. Landis, health officer of Cincinnati, declared yesterday that styles of dress worn by women were a contributing factor in the social evil. He spoke on the social evil to public health, before the convention of the American Public

"Styles in dress are dictated very largely by the demi-monde of Paris," he said. "They are designed for showing to the best advantage the figure of the wearer. These styles are copied all over the world and by women who would be properly horrified at the idea that they were contributing to the temptation and fall of man.

"There is no reason why diseases occasioned by the social evil should not occupy the same position so far as their handling by health departments is concerned, as smallpox and the plague—that is, they should be isolated and treated.

"Education, segregation, suppression, regulation and medical inspection all have been tried to solve the social evil, and all have failed. They have failed because you cannot eliminate a primal instinct by education."

PRESIDENT WATCHES HIS DAUGHTER ACT

MERIDEN, N. H., Sept. 13.—President Wilson sat in a grove of pine trees last night and saw his youngest daughter, Miss Eleanor, play the star role in a pastoral masque symbolizing the protest of the naturalist against the slaughter of birds for millinery purposes.

With a dramatic skill which surprised her closest friends, as it was her first attempt, Miss Wilson voiced in soft and appealing tones the spirit of the bird lover exhorting the hunter to forsake his rifle.

The sharp crack of a gun, followed by the sudden fall of "Ornis, the bird spirit," Miss Wilson's role, marked the climax of the piece. Wounded and sobbing, "Ornis" is consoled by the fauns, poet, dryad and naturalist, who dissuade the repentant plume hunter and make of him a bird lover.

The President's daughter spoke her lines with careful expression and was [illegible]

The setting was both unique and picturesque. Those in the audience, composed entirely of artists, poets, playwrights and literary folk from Cornish and the surrounding hills, were costumed in vari-colored gowns and coats and sat on rough wooden benches fixed in the slope of a hill at the foot of which was the stage. This was marked by logs, behind which colored footlights threw a glow on the encircling pines. Bird whistles and the incidental strains of an orchestra concealed in the trees and an occasional dance by the players lightened the piece, which was written by Percy Mackaye.

As a prelude to the performance, Miss Margaret Wilson, eldest daughter of the President, sang "The Hermit Thrush." At the conclusion of the play Herbert Adams presented, on behalf of the artists and members of the Meriden Bird Club, to Mrs. Woodrow Wilson, patroness of the performance, a parchment scroll in dedication of the bird sanctuary where the play was given.

Besides the President and Mrs. Wilson, the presidential party consisted of Miss Jessie Wilson, second daughter, and her fiance, Francis B. Sayre, and several house guests.

GIRL'S EYES KEPT HIS EYES OFF SPEEDOMETER

REDWOOD CITY, Sept. 13.—While out riding with a girl friend, R. H. Bolles, a Stanford student, ran his automobile fifty miles an hour and was placed under arrest by Special Motorcycle Officer John Logan.

Bolles was taken immediately before Justice of the Peace H. W. Lampkin, where he put up the defense that he was "so busy talking to his girl that he forgot about looking at the speedometer."

The court imposed a fine of $15.

BROKER LEFT VAST FORTUNE BY SPINSTER

PHILADELPHIA, Sept. 13.—Isaac T. Starr, a local broker, within a few days will invade the multi-millionaire class through the generosity of Miss Julia Garrett, an aged spinster, who has bequeathed him $10,000,000. The will of Miss Garrett has not been filed, but the fact that she left a fortune to Starr was verified by relatives of Starr.

Miss Garrett was Pennsylvania's wealthiest spinster. For years Starr has looked after the investments of Miss Garrett and has advised her.

Miss Garrett was the daughter of William Evans Garrett, who made a fortune manufacturing snuff.

GIRL SINGS SWEETLY TO YOUNG MILLIONAIRES

CHICAGO, Sept. 13.—Prompted by the dare of girl friends, Miss Ruth Melba Stein appeared in the hotel before Erich von Goldschmidt Rothschild yesterday and sang sweet songs to the youngest of the family of European money kings.

Before his departure yesterday, after a brief illness here, Rothschild admitted that Miss Stein is a remarkable young woman, and when his physician, counsellor and tutor, Dr. von Varendorff, added that she is "a pretty and very foolish young lady" and that he was hastening home to Frankfort-on-the-Main with his charge, acquaintances hinted at a romance between the young couple.

FIRE CALL AROUSES STANFORD SORORITY

STANFORD UNIVERSITY, Sept. 13—For a while yesterday morning the members of the Delta Gamma sorority were kept in fear of losing their clubhouse by fire. The coat of varnish in the boards against the boiler in the kitchen caught fire and a campus fire alarm was turned in, collecting all students not at classes at the sorority house.

But it was white as snow
She wore her skirt slashed up the side
And that is how I know.

POLICEWOMAN WILL STOP TANGO DANCING

PORTLAND, Sept. 13—Mrs. J. C. Murray is Portland's first policewoman. She took office today. Her official title is that of "city dance censor," a new city office created by Mayor Albee.

It will be the duty of the censor to see that the local ordinance prohibiting objectionable dancing is observed. "I shall see that objectionable dancing is stopped," said Mrs. Murray this morning. "I believe in dancing, but the proprieties must be observed. The dancing schools are responsible to a large degree for the prevalence of the so-called 'rag' dancing. They teach it because they believe it to be fashionable."

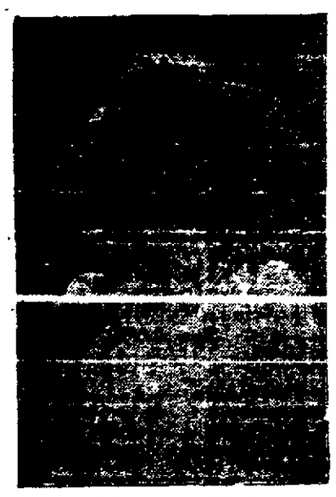
Adjudges Miss Rae Potter to be CHICAGO'S MOST BEAUTIFUL WORKING GIRL



MISS RAE POTTER.

MISS RAE POTTER was adjudged by Lillian Russell in the Chicago Tribune Beauty Contest to be Chicago's most beautiful working girl. One of her strongest claims to beauty is her marvelously clear complexion, whose pink and white tones shame the proverbial lilies and roses—and the skin itself has a texture much like satin. She claims that all of the beauty of her skin is the result of her constant and consistent use of MELOROSE PREPARATIONS—particularly Beauty Cream and Melorose Powder and Rouge, which she uses freely.

Reception at Kahn's

Miss Potter will hold a reception, assisted by several beauty experts, all next week at the DRUG DEPARTMENT at Kahn's, and will give every one

DUST IS AN ENEMY

By LILLIAN RUSSELL

(Copyright, 1913, By Lillian Russell.)

COUNTLESS discourses have been made to the public on the vital necessity of guarding against unhampered circulation of dust, but there cannot be too many.

The woman who, for no other reason than to have a clean household, thoroughly dusts her house and sees that the sidewalk is washed at least once a week is on the safe side.

But there is a more important reason than "appearances" why the house should be free from dust. The fine particles of dust sponsible for the general weakening of the race.

The most grave consequence of dust is, of course, the communication of disease, which is possible through this source. Where the dust is a by-product of manufacture the substance is usually brittle and, if examined by a microscope, will be found to be of irregular shape, the jagged projection being of hook form.

When dust of this character is breathed it is caught in the lining of the mucous membrane of the throat and lungs, which is intensely tender and is in a state of titillating, fluttering movement all the time.

This dust may be expelled, if it is not hooked into the membrane as a crocheting needle hooks into a ball of yarn, but where it is not expelled for a time it leaves a small scar. Wherever there is a scar there is no flow of mucus, and in time the membranous lining becomes one great scar. This means, usually, tuberculosis. It is most common with stonecutters and metal workers, who must endure a great amount of dust.

In the household the danger is also great, for where dust is permitted to collect one may find an assortment of small particles of filth from the street. These particles may not, of course, be distinguished by normal vision, but that does not change their character nevertheless. A grain of dust is not a huge sandstone, but a great many grains of sand may make one. It is the same with dust.

That a house should be kept free from dust as a protection of the health is generally understood. But that dust is ruinous to the complexion is not so generally recognized, or, if so, is ignored.

The woman who cares for her complexion should see that all the fine particles which lodge in the skin pores are carefully washed away at least once a day. If one wants to see visualized a speck of dust clogging a skin pore just glance at a person afflicted with blackheads.

Remember One of the great requisites of life and health is clean, fresh air—and this does not mean dust laden air

ANSWERS TO QUERIES

G. E. S: The best grade of castile soap usually agrees with most skins. If your face is dry you need a good skin food or cold cream to supply the oils that the skin lacks. Massage the face with a skin food each night when retiring. This will remedy the dryness. If you will send me a stamped addressed envelope I shall gladly send you formula for the skin food I have used for years. Dark circles under the eyes are usually caused from eke strain, dissipation of any kind, and are sometimes rereditary. Bathe the eyes frequently with cold water, rubbing underneath them gently with the tips of the fingers. If you care for them I shall send you formula for eye wash and a set of strengthening exercises for the eyes.

W. E.: Bad skin does not exist where there is good circulation This fact is so well understood by masseuses that they often overdo the massage. Ignoring the construction of the skin and its underlying tissues, and the fact that no two people have exactly the same sort of skin, they often bring about the desired circulation at the expense of dispersing that fatty tissue which lies beneath and supports all skins, the destruction of which occasions sagging muscles and wrinkles.

N. A.: The wax often gathers inside the ears, and care should be taken to remove it. This should be done gently. Some people have a way of digging out their ears, either with hairpins or pointed instruments, which come for the purpose. Serious injury can be done to the delicate structures of the hearing apparatus if such things are not used carefully The canal of the ear should be cleansed with a swap made by winding a bit of cotton around a blunt toothpick. The little folds and creases of the ears should also be carefully gone over.

VETERAN FIGHTER ELOPES WITH 21-YEAR-OLD GIRL

WASHINGTON, Sept. 13.—George Curry, one of the most picturesque members of the Sixty-second congress and former governor of New Mexico, has eloped to Rockville, Md., the capital's Gretna Green, and married Miss Martha Clara Gans of Uniontown, Pa. Curry is 50 years old, while his bride gave her age as 21. Objections by the young woman's parents to the match are said to have precipitated the runaway wedding.

Curry served as sheriff in several counties in New Mexico in the frontier days, saw service in the Spanish war as a captain in Roosevelt's rough riders, fought later in the Philippines as commander of the Philippine scouts, was police chief of Manila and later governed several of the provinces in the archipelago. He was elected to the Sixty-second congress, but did not seek re-election.

ATTACHES HUSBAND'S AUTO TO GET SUPPORT

EASTON, Pa., Sept. 13.—Invoking the aid of a statute enacted in 1718, Mrs. Ida VonPhilp, wife of Bertil Von Philp, a mechanical engineer and inventor, today filed an attachment against her husband for $1500 for support for herself and children. The attachment permitted the sheriff to seize anything of value of VonPhilp that he could find.

Accompanied by Chief Deputy Sheriff George W. Grube, Sheriff Meyers attached Von Philp's new automobile, valued at about $2300.

Mrs. Von Philip also brought an action against her alleged rival, Miss Susan B. Bonham, formerly a trained nurse of Bridgeton, N. J., in which he demands $10,000 for alleged alienation of the husband's affections. Mrs. Von Philp charges that Miss Bonham represented herself, bith in Easton and Palmer township, as the wife of Von Philp.

Von Philp and Miss Bonham were arrested in a house in this city one night this week.

'GOOD BOYS AND GIRLS' AT ANNUAL MUNICIPAL PICNIC

FORT SMITH, Ark., Sept. 13.—The first municipal picnic ever held in this part of the southwest was given by this city today, when 5000 boys and girls were entertained.

The picnic was for "good boys and girls" only. Boys who use cigarettes or [illegible] language were not allowed as guests, and the [illegible] known to have been guilty of malicious mischief. The affair closed with a 25-mile motor car ride. Five hundred owners of automobiles donated the use of their machines. Local merchants gave food, sweetmeats and prizes valued at $3500 to aid in making the picnic a success.

Prizes were given to the boy and girl with the cleanest faces, hands and teeth and to those who rendered the best songs, stories and recitations.

BROKEN HEARTS MENDED

By LAURA JEAN LIBBEY

(Copyright, 1913, By Laura Jean Libbey)

THERE are couples who live a lifetime in wedded bliss together without knowing what it is to have an angry word pass between them. There are other couples who com[illegible] downright quarrels, ere the honeymoon is scarcely over.

It very often happens that the young bride hurriedly packs her trousseau and in tears goes home to mother. Some husbands are thrown into the wildest alarm over such an act; they cannot eat or sleep until they have followed them and begged them to return to them.

If, perchance, the man has been a benedict and has cast aside his widower's weeds, bowing to Cupid's will a second time, he takes his bride's fit of the sulks philosophically When he returns to his [illegible] and finds a note on the dresser telling him that all is over between them, she is going back to her parents never to leave them again, he only smiles laconically and sets to work getting his own supper, sitting down to read the paper contentedly. Unlike many, a new husband, who has yet to learn his lesson in matrimony, he does not rave, tear his hair, rush out to send a night letter by telegram, or take the first train to his father-in-law's in search of her. He knows that when, woman-like, she has time enough to cool down a bit and think the matter over, regrets will come and she will realize how foolish the whole affair was, over which they quarreled, and she will be coming back to him, sweeter, kinder than ever. Then their course of true love will run smoothly for many a day. Each will be put on their best behavior

The wife knows the value of kissing her husband "good-by." She realizes that when he goes to his business every hour that separates him from her he is toiling for her, thinking of her, making money for her, as best he can; that he looks forward to the home coming eagerly. The wife who sends her husband from her with a frown on her features can never tell under what circumstances she will look upon his face again. If ill befalls him her regret is lifelong If a dark cloud of sorrow should gather over her who could comfort her as he always did?

In moments of anger we are strong, when regrets come we feel our weakness Then it is often too late to change the course into which our lives have been turned. There are other regrets which sting the heart to its very depths, causing a lifelong unhappiness.

There is another form of regret which many a man is never able to shake off, and that is when some other fellow weds the girl that he took too much time in wooing and proposing to. In the days when he went calling on her he was wont to note her girlish awkwardness and the face which was plain, almost to homeliness. Time teaches him its lesson all too quickly; that the more ugly the duckling the more beautiful the swan into which it may develop.

Regrets are useless when he sees her pictured face looking up at him from the society pages of a magazine and his favorite evening paper. Regrets crowd fast upon the heels of memory, and will not be downed. Regrets caused by the loss of love are harder for the heart to bear than all others. But no life is entirely free from them; no, not one.

There is one thing about jolly people which is commendable. They seldom retain anger long enough to brood over it. They believe in kissing and in making up, never allowing the sun to set on their anger. They have the happiest life of it, by far. They never know the weight of regret, but spend their days in giving pleasure to those they love. We bring upon ourselves most of our own regrets, instead of courting life's joys.

SAYS "SHE CAN'T MARRY OTTO."

"Dear Miss Libbey: I am 18. For three years I have been going with a fellow of 21 and we are now engaged. O, he is just grand. Now about a week ago my brother came home from his chum's house and stormed all over and said I couldn't marry Otto. He won't tell me why, and when I cry and tell him to he says he has my interests at heart. Otto declares he don't know any reason for my brother's acting so peculiarly and he begs me to remain true to him and says he will die if I don't. He wants me to elope with him. My heart will break if I have to give him up. VIOLET."

There's something wrong with Otto, or he would never suggest eloping to you, Violet Eloping is a dreadful thing. Men of the right sort would not dream of asking a girl to elope. You better listen to your brother's advice. He would not object to your marrying the fellow unless there was some good reason for his objections.

WHY IS IT WRONG

"Dear Miss Libbey: We are 17. Why do you consider it wrong to kiss a young man before engaged? As you do consider it wrong, what, then, is the proper way to bid a young man 'good night'? What should you do when a strange young man winks at you What does it mean? C. and N."

Young men have no respect for girls who have no respect for themselves. And the girl who allows familiarities certainly has no respect for herself. A kiss is a sacred thing and should be treated as such. A girl never gains anything by promiscuous kissing and invariably loses much. Look the other way and appear not to see it when a man winks at you. Such an action means nothing complimentary, that's sure. It's insulting.

HE DRINKS AND GAMBLES.

"Dear Miss Libbey I love a young man and have loved him ever since I saw him first, and my love for him has and is growing fonder each hour. I will admit that he smokes, drinks, and gambles some, but when a person has true love for him they think not of that. As I told mother, when I love a person, even if he was a robber, I would prove true to him, but I love a gambler, etc., instead. We are the best of friends and always have been. He has taken me home from church once, from a party once and from a dance once. At dances we danced several sets together. But he is keeping company with another girl. The first time I saw her with him it nearly broke my heart. I worried so that night that I found myself in my room with the revolver in my hand. I know not what I was going to do, but guess I must have thought of suicide. I tried to forget him and go with the boys who wanted to keep company with me, but I couldn't. Every time a boy would ask to keep company with me the picture of my lover passed so clear before my eyes that I could say nothing but 'No.' There was a young man who left here the other day who wanted me to promise him to be his wife. I liked him well enough, but I told him I couldn't for if I didn't get my lover I would not get anyone. He wanted me to correspond with him, my lover. It seems it would be better for me to be gone, but when I think of mother, brothers and sisters I say I will live for them all. I have prayed for help and I still pray. Mother and father know about it all and say that whoever I love they are willing and will try and help me. I heard once that the father of the girl he is going with is against them keeping company any longer, but I am not certain if it is true or not. VIOLET."

It always seems so unfortunate to me that a girl is willing to throw her heart at the feet of a man with such vicious habits as drinking and gambling. The work of reforming such a man is usually a most thankless task and very often means nothing but untold misery for the girl who undertakes the work. Do try to forget this man. There must be other young men in your community more deserving of the love of a nice, respectable girl. Do try to get interested in one of them.

ONLY SENT ONE BOX OF CANDY.

"Dear Miss Libbey: I have been corresponding with a man for about three years. At first we both wrote just occasionally, but these last several months I have been hearing from him every week, and sometimes twice a wek This was after we had exchanged pictures. He has never written of love, etc., but has made such remarks as he wished. If I was his now, that he would be happy? And that he thought the world of my picture(that was only a post card photo) But he has only sent me one box of candy. Don't you think if a man cared for a girl he would remember her oftener with something of the sort? He says he will come to see me this fall if I don't tell him to stay away. What shall I tell him? I rather dread his coming, while at times I wish he was here. Shall I keep on corresponding with him? For one thing, most fellows as this girl they care for to [illegible] other company, but he has never mentioned it. Please tell me what you think of his remarks, etc.? Now, as to his coming, my father don't seem to like it, and told me to stop writing to him. I am coming 20 this fall. Am I not old enough to entertain a friend from another State? Am not sure, but think this man is around 28 Am well acquainted with him, as we worked at the same place on a western farm three years ago. Of course, I was only 16 then, and never thought anything of his being near me all he could. He has never tried to kiss me, etc., for which I now respect him very much. A.D."

No doubt the man thinks it would be very selfish of him to ask you to give up other company for him. Perhaps he, too, is not exactly sure that he is in love I do think it would be well to allow him to come to visit in the fall. Then you would both be in a better position to determine your feelings for each other. In the meantime, don't expect too much of the young man. If you are not engaged you should hardly expect him to send you gifts such as you suggest. His remarks certainly may be interpreted as showing more than a casual interest in you.

WANTS TO BE MORE THAN A FRIEND

"Dear Miss Libbey: I have a big problem which I want you to help me on. About two months ago I wrote to a girl saying that I would probably get my vacation in June, and if agreeable would go down to see her. Well, a few days ago I heard from her and her excuse for not writing sooner was that she 'just put it off, that's all.' Then she writes exactly as I have put it down here. I want to tell you something else, too, George, and I don't want you to be the least bit angry with, for I am telling you now so that later maybe you won't think I tried to lead you on I would like the very best in the world to see you, and if you wish to come down to see me this June, I shall be so glad to have you come, but, George, I want you to come only as a very good friend. We could have a good time I know. Let me know for sure if you intend coming Had some kodak pictures taken last Sunday I was in ——, and as soon as I can get some will send you some if they are good Am awful sleepy, George, so goodnight Write soon to Edith." Of course literally, the above quotation means that I can never be more than a friend to her. Is that it? But I do want to be more than a friend. Do you think it would pay me to go down there (1000 miles,) and endeavor to win her, despite the statement she has made to me? In other words, do you think there might be a chance of winning her? I certainly do not know what I'll do if I don't get her. I've never proposed to her, so probably if I should go down there and do so she might consent to be more than a friend. At any rate, I have about decided to make the trip and try real hard to win her. Can you give me any suggestion? If there is anyone who needs a little advice now it's certainly me. Hoping to hear from you at your earliest convenience and assuring you I will give your advice earnest consideration, I am GEORGE."

I think the girl's letter shows her to be a very honorable person. By all means I would advise you to go down and propose to her. If you want to win out. I am sure she is interested in you, but, of course, until you propose to her you cannot expect her to treat you as more than a good friend. You know, George, nothing in the world is worth winning that does not cost a little effort

'NIG'S' EXHIBIT SHOULD GET PRIZE

Chamber of Commerce Cat at State Fair With Family

Proud Mother After Trip Steps Out of Organization Banner.

Alameda county came to the front yesterday as a producer before the entire assembled exhibit experts at the Sacramento State Fair, thanks to "Nig," the pet cat which for years has occupied the upper floor of the Chamber of Commerce building. "Nig" made her appearance with the exhibit yesterday when this was unloaded at Sacramento and in doing so established the county's producing record

The entrance of the big cat came as a surprise, while Fred Parsons, in charge of the manufacturing exhibits, was unpacking the huge banner of the Manufacturers Committee. When this was spread out there was found, in the very center, "Nig" and a family of seven little "Nigs" born en route. The cat had evidently crawled into the banner in which it had been in the habit of sleeping, the day before, and so was packed up with it.

MOTHER DOING WELL.

Parsons has taken charge of the small cats and the committee mascot, and, in a postal card to Secretary Fred Boegle of the Manufacturers' Committee, reports mother and family doing well.

Elaborate preparations are being made for the Alameda county boosters' excursion next Friday when over 500 local business men will make the trip to the capital.

The organizations which have already decided to take part in the excursion are the Oakland Chamber of Commerce, Oakland Commercial Club, Oakland Merchants' Exchange Manufacturers' Committee, Alameda Chamber of Commerce, Berkeley Chamber of Commerce, Alameda County Ad Men's Club, Rotary Club, the Progress and Prosperity Committee, Real Estate Exchange and the Oakland Down Town Business Men's Association.

WHEN EXCURSION LEAVES.

The excursion train will leave the Sixteenth street depot at 8 45 o'clock on the morning of Friday, September 19. It will leave Fruitvale avenue, Berkeley, at 8 50, and Richmond at 9 o'clock. The train will arrive in Sacramento at 11 20 a. m. The special will return from the state capital at 7.15 o'clock in the evening of the same day, but the tickets are good for seven days and no one is required to return on the special. Special rates are in force.

Every effort is being made by the committee in charge to interest all Alameda county boosters in the excursion, that the best impression possible may be made at the State Fair. There will be banners arranged for, literature taken and all manner of propositions for advertising this county to the visitors to the big exposition will be planned

Information regarding the trip may be obtained from A A. Denison, secretary of the Oakland Chamber of Commerce.

WOULD SET ASIDE PRATHER DEED

Edson Adams Files a Suit in Effort to Obtain Property.

Edson F. Adams, capitalist, who is trying to take the old Prather homestead at Tenth and Filbert streets from Samuel D. Prather, his brother-in-law, filed suit in the Superior Court yesterday to have a deed transferring the property declared void At the same time Samuel Prather filed suit against Adams to quiet title.

The late Thomas Prather received the property from his wife, the late Julia A. Prather, and he in turn deeded it to Samuel Prather. Adams claims that the property should have gone to his children

Preferring to dismiss one of his suits against Samuel D. Prather for recovery of other property formerly belonging to Thomas Prather rather than make a deposition of what he knew about it to attorneys representing Samuel Prather, Edson Adams caused the [illegible]n to be dismissed when the matter came up before Superior Judge Brown yesterday afternoon. Attorneys Snook and Church, representing Adams as special administrator, asked the court to vacate the order for the deposition. Their petition was denied, and they then gave notice of dismissal of the action to Attorneys Chapman and Trefethen, representing Samuel Prather.

DYNAMITE CASE TESTIMONY MAKES MASSIVE VOLUME

INDIANAPOLIS, Sept. 13.—United States Attorney Charles W. Miller today added a huge volume to the immense records of the dynamite conspiracy trials when he forwarded 725 pages, constituting the government's brief in the appeal of the case by the convicted dynamiters, to the United States Court of Appeals at Chicago. It is a remarkably brief document when compared to other records in the cases, the evidence given in the trials last winter alone filling 27,000 pages and the defendants' bill of exceptions constituting five huge volumes, totaling 6000 pages.

The government's brief is more than half devoted to a complete restatement of the dynamite conspiracy and the part each of the thirty-one convicted defendants played in it. It then gives the government's argument by the defense in the consolidation of the trials against the thirty-three defendants; sets out the government's refutation of the objection to admission of testimony by Ortie E. McManigal and Edw. Clarke, whom the defense would have excluded as co-conspirators, and supports the instructions by Judge Anderson to the jury as having been faultless.

CONSULAR OFFICES AMERICANS' REFUGE

U. S. Orders Representatives to Offer Protection in Mexico

WASHINGTON, Sept. 13.—Europeans and other foreigners, as well as Americans, may find refuge with United States consular officers in Mexico. The state department has ordered those officials to extend protection to all foreigners, in anticipation of such requests as have been received from China, Switzerland, Spain and some other governments. In that way it is expected to reduce to a minimum any grounds for demands for intervention.

The transport Buford, now down the Pacific coast of Mexico for refugees, has been ordered to give accommodations to all foreigners.

REFUGEES SUFFER.

One hundred Americans and 18 other foreigners, making their way from Torreon to Monterey, en route to the United States, are having a dangerous journey because of the bad condition of the roads. The party is under the direction of Consular Agent Allen and plans to embark at Tampico About a hundred Americans still remain in the vicinity of Torreon.

PROPOSES BIG BOTANICAL GARDENS

Prof. Engler of Berlin Addresses State Botanical Society.

Lecture Heard by Prof. Schroeder of Zurich on Flora of the Alps.

Botanical gardens were proposed for California by Professor Adolf Engler, lecturer in the Imperial University of Berlin and director of the Royal Botanical Gardens of Berlin, at the first annual dinner of the Botanical Society, which was held last evening at Hotel Oakland. In a brilliant toast he outlined a magnificent botanical garden, which, he said, would add to the beauty of the Golden State. "The rich soil and the vast areas of cultivated land could be converted into extensive gardens," said Professor Engler, who inspired the botanists to arouse enthusiasm in the movement for the gardens Professor W. L. Jepson, president of the California Botanical Society, acted as toastmaster. Speeches were made by the distinguished botanists, many of whom are touring the world in their search for new species of flowers. They were Professor C. von Tubeuf, head of the Botanical Department of the University of Munich; Professor Henry C. Cowles of the University of Chicago; Prof Adolf Engler of Berlin, Dr. W. A. Setchell, head of the Botanical Department of the University of California, and Dr. Alfred Dachnowski of Columbus, Ohio.

The banquet was followed by an illustrated lecture in the Hotel Oakland, which was given by Professor Carl Schroeter, director of the Botanical Museum at Zurich, Switzerland. His subject was "The Flora of the Alps." The highly-colored slides depicted the beauty of Switzerland and its luxurious blooms. Botanists of international fame were in attendance Students of botany and lovers of the native flora filled the ballroom.

BRANDON SUES TO OBTAIN HIS FEES

Continental Building and Loan Affairs, However, Make Outcome Dubious.

SAN FRANCISCO, Sept. 13.—Frank J. Brandon of San Jose, appointed custodian of the assets of the Continental Building and Loan Association, in August, 1912, filed suit today in the superior court asking judgment of $724 as pay for his services. Owing to the peculiar tangle of the concern's affairs, Brandon is at a loss to know where the money is coming from and in his suit names the Anglo-California Trust Co., the Continental Association and State Banking Building Commissioner George Walker, asking judgment of one or all of them.

Last May the superior court compelled Walker to restore the business to its rightful owners, claiming that the commissioner was not warranted in seizing the property. Brandon alleges that he was promised $8 a day for his services as custodian, was in charge 93 days and received but $20.

Merchants Oppose W. F. & Co. Hearing

SAN FRANCISCO, Sept. 13.—The State Railroad Commission heard arguments this morning on the application of Wells-Fargo and Company for a rehearing on the order reducing their charges in California. A number of representatives of the various merchants' associations and business houses were present opposing the granting of the rehearing.

FIRST POLICE OFFICER IS SUICIDE

Aged Veteran of Early Force Kills Self With Rifle.

B. A. C. Watson Ends Life in Basement of His Home.

FRUITVALE, Sept. 13.—Retired Policeman B. A. Clark Watson, 77 years of age, a survivor of Oakland's first police force of three men, ended his life this morning by shooting himself through the heart with a 32-caliber rifle in the basement of his home at 3422 Fruitvale avenue.

Watson rose shortly before 7 o'clock and went downstairs. Shortly afterward his wife was startled by a thud as if her husband had fallen heavily to the ground. She rushed in alarm downstairs, knowing that her husband had been much troubled with his heart of late, and thinking that he might have succumbed to an attack. On going into a room in the basement of the house she found Watson lying on the ground breathing heavily, while a rifle lay by his side. He expired a few moments later before his horrified wife could summon medical aid. Mrs. Watson notified the neighbors, and an examination showed that Watson had shot himself below the heart with the rifle, the wound causing almost instant death. Mrs. Watson did not hear the muffled report of the rifle.

WAS DESPONDENT.

Watson had been despondent for several months, owing to stomach and heart trouble, although he had given no intimation of contemplating suicide.

Besides his wife, Watson is survived by one son, Frank Watson, a prominent real estate man. The son was not at home at the time.

Police Officer Watson was appointed to the Oakland police force in the pioneer days by the city council. He held this position with other policemen from 1880 to 1886. Watson later became identified with the Oakland police force, in which he served until his retirement several years ago. During his career as a policeman Watson earned the esteem of his superiors and was popular with his fellow officers.

He was a brother of the late James Watson, who was at one time superintendent of the large Carpentier ranch in Moraga valley.

SANTA DOMINGO REBELS FORM STATE

Secessionists in North Found Provisional Government

NEW YORK, Sept. 13.—Santo Domingo rebels have precipitated an unprecedented situation in the West Indian republic by forming a new state in the rebellious northern territory, according to advices received by Dominicans in this city yesterday. The news which they consider of the greatest importance is that Ricardo Limardo, minister of public works, and communications in the Bordas government has resigned and joined the forces of the secession movement in the north. The secessionists in Puerto Plata have formed a provisional government with Horacio Vasquez at the head.

According to a cable dispatch received by F. Deetjen, the Consul-General of Santo Domingo in New York, the Dominican war vessel Jacagua has left Santo Domingo for Puerto Plata with between five and six hundred of the best trained soldiers in the country on board. The Consul-General said that he would not be surprised to learn that President Bordas himself accompanies the expedition.

"My advices," said Mr. Deetjen, "are that the representatives of the United States in Santa Domingo are supporting the central government. The United States has agreed to the closing and blockading of the ports which have seceded. The news that the east and south of the country are quiet is confirmed. The secession movement is confined to the north."

Twenty Men Injured In Mill Explosion

BUFFALO, Sept. 13.—A score of men were burned, six seriously, in a series of explosions that shattered the walls of the Clover Leaf Milling Company's plant here early today. Fire followed the explosions and the elevator and flour mill were destroyed with a loss of $200,000 The explosion in many respects resembled the disastrous explosion in the Husted mill last June when a number of workmen were killed.

PROBATION OBTAINS LODGING IN JAIL

SAN FRANCISCO, Sept 13. — Harry Burgess, an 18-year-old boy on parole from the Preston reform school, violated the terms of the probation granted him and was started back to the institution yesterday. His mother in the meantime began taking steps to prevent his recommitment annulled. When Deputy Sheriff Greenough arrived with him he was told to let him go. Burgess had just enough money in his pocket to get back to San Francisco and at 2 o'clock this morning, eight hours after his release, applied at the city prison for a night's lodging.

"I hoped I would never have to come back here, but here I am," said Burgess, as he was placed in a cell for the night.

BOY STRUCK BY TRAIN MAY DIE OF INJURIES

RAYMOND FOX.

RUN DOWN ON TRACK IN E. OAKLAND

Raymond Fox, Son of S. P. Machinist, Has Skull Crushed.

Tries to Cross in Front of One Train, Is Hit by Another.

FRUITVALE, Sept. 13.—Raymond Fox, young son of J. J. Fox, a Southern Pacific machinist of 4205 East Twelfth street, will probably die from injuries received when he was run down by an east-bound Southern Pacific electric train on Thirty-seventh avenue, between East Tenth and East Twelfth streets, at 5:45 o'clock last evening.

The lad attempted to cross the tracks in front of a San Jose bound Southern Pacific train, and failed to notice the approach of an electric train which was running toward Melrose. Before the motorman could pull up the train struck the boy and hurled him to the side. Raymond was picked up unconscious and hurried to the Alameda Sanitarium. The boy was still unconscious this morning, and his life is despaired of by the physicians. He received a fracture of the skull and other injuries.

CALIFORNIA'S BEST ON EXHIBITION AT FAIR

Trainloads of Visitors at Hand When Gates Are Thrown Open.

Harness Races, Trap Shooting and Many Other Attractions Offered.

SACRAMENTO, Sept 13.—California's best in everything in fruit, minerals and manufactured products offered one of the most appealing exhibits imaginable in the opening this morning of the sixtieth annual state fair. Trainload upon trainload of visitors and parades of autos and passenger vehicles poured into the city from early morning from every direction. From interest manifested by exhibitors in the exhibits and from the records of visitors attending the opening, indications point to a signal success for the fair.

The features of the opening day's program are the harness races, trap shooting and a great diversity of spectacular amusements. Life and variety will sparkle through the program every minute until the closing hour next Saturday.

Indications point to a successful week with record-breaking attendance. Visitors already are beginning to arrive by the thousands and Sacramento will be taxed to its utmost capacity to accommodate the [illegible] throng.

Counties are showing in increased numbers and for the first time in many seasons the Southern California counties are making a concerted effort to display their products in Sacramento.

JOINT DISPLAY.

The Southern California Exposition Commission is making a joint display from the counties of Los Angeles, Riverside, Orange, San Bernardino, Ventura, Imperial and San Diego The other counties in the agricultural pavilion and annex are: Fresno, Alameda, Madera, Napa, Solano, San Joaquin, Shasta, Sutter, Merced, Nevada, Colusa, Glenn, Santa Cruz, Butte, Calaveras and Sacramento. Each county is trying to outdo the other in the competition for prizes that range from $600 to $75.

HARNESS RACES.

The harness races, for purses aggregating $35,000, begin to-morrow and continue throughout the week except Sunday. The race track is in unusually good condition and fast time is looked for.

The fair management has arranged a varied program of free attractions for the week, with a head-on railroad collision as the feature event This will be held next Wednesday afternoon. Two 60-ton locomotives will be dashed together at full speed on a single track laid in the center of the race course.

On the list of attractions each afternoon will be Dr. Carver's diving girls and horses, which will leap into a tank from a platform 50 feet high; A. Stanley's chariot and hippodrome racers and trick riders; Max Friedman's auto polo players and a number of other novelty acts Each night there will be a free program on the track with a display of fireworks. The horse show begins Monday night and will be held each evening of the week in a large tent. This will be quite a society event, as many of the prominent riders from clubs of San Francisco, Los Angeles and other cities will participate.

BAND CONCERTS.

Sunday will be the big musical day. Fifteen brass bands will compete in the $2750 band contest.

Special excursions will be run on each of these days, with one of the largest special trains coming from San Francisco where an excursion is being planned by the combined civic bodies

FUNERAL SERVICE FOR PIONEER OF BERKELEY

BERKELEY, Sept. 13.—Funeral services will be held this evening for James C. Gentry, one of the organizers of the First Christian church and a pioneer of this city, whose death occurred yesterday. The services will take place at the late residence at 2329 Derby street. The remains are to be shipped for interment [illegible] former family residence of the Gentrys.

Gentry is survived by a widow, Mrs. Sarah E. Gentry, two daughters, Mrs. Rose Varner and Miss Florence Gentry, and a son, W. H. H. Gentry, an attorney of this city and Oakland.

Gentry was 78 years of age. He crossed the plains in a "prairie schooner" in 1856, settling first on a farm in Sonoma county, which he conducted for many years, and then removing to Berkeley, where he had resided since 1888.

Tom Sawyer's Cave For Boys' Plunder

HANNIBAL, Mo., Sept. 13.—Using the "Mark Twain" cave south of Hannibal, as "Tom Sawyer" and his companions did, as their rendezvous and storing their plunder there, five Hannibal boys, ringleaders of an alleged band of youthful robbers, today confessed to the police that they had committed many robberies in and near this city during the last four years.

Virgil Yates, aged 17; Charles Impoff, 15; Dick Carroll, 19; Everett Gillis, 19, and William Russell, 18, who are alleged to have made the confession, are under arrest.

Four members of the band still are at liberty.

Last of the Picos Dies in Poverty

LOS ANGELES, Sept. 13.—Fernando Pico, said to be the last surviving descendant of Pio Pico, last Mexican Governor of California, is dead. Pico died in poverty, having struggled relentlessly to eke out a living for himself and wife on a small tract of land near Watts, once a portion of his distinguished ancestor's vast estate. He was 74 years old.

AGED MAN RECOVERS FROM EFFECTS OF FALL

ALMEDA, Sept. 13—M. P. Alpha, probably the oldest Alamedan, and who was badly injured when he fell in an Oakland park recently, has so far recovered as to be able to be about again. Mr. Alpha is 83 years of age.

He had been at Lakeside Park listening to the music, but on arising from a bench tripped and fell, sustaining a badly strained left shoulder. He was treated by Dr. J. A. Riley and removed to his home at 2105 Santa Clara avenue.

The aged Alamedan is a member of the Blazing Star Lodge of Masons, one of the first chapters instituted in the United States. He is also a member of one of the oldest lodges of Odd Fellows.

perature standing at 1110. Both Rodgers and Kores are working with one hand bandaged. No wonder McCredie is looking worried.

That was a great pitching duel yesterday between the two Coast League star-ladders, Overall and James. They might have been pitching yet, had James displayed a little more headwork in that eighth inning. With one down and Cartwright at first Schmidt grounded to James, who had an easy double play ahead of him. Big Bill was plainly rattled, and after wobbling like an angle worm he finally tossed Schmidt out at first. Overall's single to left followed immediately and gave the only run of the game.

The Oaks grabbed nine hits off Munsell at Sacramento yesterday for a total of five runs, but Pruitt weakened rapidly in after the Wolves had the tying run on 1 after the Wolves had the tying run on second base. Moran ended the game with a grounder to Gardner.

Howard Gregory pitched wonderful ball for nine innings against the Tigers down south yesterday, but in the tenth he walked the first two and then was found for a double and a single, result Tigers won again, 4-1. Harkness twirled steadily.

McCredie seems to have picked up a jewel in Fred Derrick, the elongated first baseman of the Ducks. Derrick came from Toledo and has only been playing ball for three years. He is fast, rangy, a hard hitter, and has a grand whip. The Portland players say that Derrick throws the "lightest" ball of any man on the team yet it shoots across the diamond like a bullet. Derrick doesn't have to take a full swing when he throws. He just make a regular Archer peg from the shoulder

"Spitter" Douglass, the human geyser, appears to have recovered his control in the Northwest. He has been pitching splendid ball for Spokane, and the scribes figure that he will be drafted surely. Yesterday he shut out Seattle 4-0, accomplishing the trick easily.

The American League is furnishing a thrilling struggle these days, even though first place has been cinched. Walter Johnson pitched Washington to its fifth straight victory over Cleveland yesterday, and the Senators are now within one game of second place. At the same time, the Athletics showed their old hitting ability against Chicago, coming from behind in the sixth inning and winning, 7-5. Oldrig cleared the bases with a triple and Baker followed with a home run.

"They ought to have special men to bat to the infield and do fungo hitting," mused Bill James yesterday. "I think that's one of the reasons why pitchers can't hit, and why their arms go back on them sometimes. The pitchers on nearly every club are asked to do the fungo hitting. That sort of work is certainly bad for the batting eye, and it doesn't do the pitcher's arm any good. If a man who is batting flies to the outfield takes a long free swing at the ball, it may not do his arm any harm, but too many of us chop at the ball with the result that it places a strain on the shoulder and wrenches the muscles of the arm. I have seen several pitchers who would invariably blow up in the game if they had been fungo hitting before it."

Krause and Hi West were of the same opinion as their colleague.

PORTLAND'S LEAD FAR GREATER THAN REST HAVE HAD

From the standings for the last four years, Portland has outclassed its field to a much greater extent than any of the other clubs have ever done. Is it because of the superiority of the Beavers over pennant winners of former years, or simply that the other teams are not as strong.

Standings for the three years at this date are given for the basis of comparison:

BRITISH GOLF CRACK WINS WITH REMARKABLE EASE

"J. H. Taylor, the British open champion, like other great men, has always been something of a phrase maker," writes Horace Hutchinson in the London Telegraph. "With regard to modern condition of the open championship he is responsible for two such phrases, and it is singular how eminently he justified them in his latest gallant win of that great title.

"One, which I believe he contributed to the obiter dicta of golf long ago, is that 'the way to win a championship is to win it easily.' He did that this year for he had eight strokes to play about with as a credit balance. He has also illustrated his theory in another championship which he won by leading all his field on the first round and by going steadily further ahead of them with each round they played.

"It seemed that they had only to go on playing long enough for him to be out of sight of the rest altogether. And another dictum which he made quite lately, and with reference to this last championship of all, is that 'it is easier to win the championship than to qualify.' He illustrated that seeming paradox again very strikingly.

"If he had only stricken the ball once more in the preliminary rounds at Hoylake, he would not have been a starter for the actual championship at all.

"I suppose we may take it that this splendid win of Taylor's fifth championship was achieved chiefly by virtue of his wonderful power of controlling the ball in a cross wind, and of driving low to bore into a wind; above all, perhaps, by his faculty of playing his approach shots, heavily cut, yet with a low trajectory. I remember very well the first time I ever played a match against Taylor and I think it was the first match, except against his mates in the village club at Northam, that he ever did play. The Royal North Devon club played the village club. I was immensely struck, even then, by Taylor's stroke as something that we had not seen before. The ball went away so low that it had the look of being half-topped, and it was a surprise to see how it held its way through the air and the distance of its carry.

"Of course, Taylor—he was scarcely more than a boy—was nothing like the player that he is now, and if I had played my best I ought to have beaten him. But I did not, and he beat me, after a close match. Another thing that struck me, besides his long carry, was that at one point near the end of the match, I laid him a stimy. He had the shot for the hole—2 for the half—and I was up at the time. Ninety-nine men out of a hundred would have putted round the other ball for a half. Not so Taylor. With his iron—it was before the day of mashies—he played for a loft and nearly, but not quite, holed his ball.

"He did hole the putt back, but had to work to do it. I remember saying that he would not have played for that loft if he had had a little more experience. A little more experience of Taylor, however, showed that he had such a power of stopping the ball off a loft that he could safely play for a lift even in such circumstances, and be safe not to run himself out of holing. It is true that was with the 'gutty' ball, which would stop more quickly, but even so"—

JACK NEVILLE RETAINS GOLF TITLE AT DEL MONTE

DEL MONTE, Sept. 13. — By excelling in every department of the game, Jack Neville, Claremont golf crack and champion of California, yesterday defeated E. S. Armstrong of the Annandale club of Los Angeles, five up and three to play, thereby retaining his title of golf champion. It was a great match and the superiority of the Claremonter was evidenced from the start. There was no luck connected with the victory. It was clean-cut and even the pessimistic were forced to acknowledge the clever work of the champion. Armstrong got off to a poor start. However, after losing the first two holes of the 36-hole match, he came back with a string of four straight holes and wound up the first nine holes two up.

Armstrong admits that the game played by Neville was a bit above him. The only excuse the Annandale golfer offers is that his cleek, which he used for driving as well as for long shots on the fairway, is spliced and the knowledge that it was not a sound club bothered him.

In the semi-final the day before Armstrong sprung his club. The club was fixed all right and lasted through the match, but its owner was never certain whether it would hold together or not.

Neville outdrove Armstrong all through the match. Armstrong's approaches were always good and his putting was better than Jack's, but the gain which Neville made in the long game gave him an edge when the balls were close to the green and he was able to capture many holes by being right up to green grass in one stroke less than his rival.

BERRY AGAINST USE OF THE OPTION

Henry Berry, president of the Los Angeles team, no longer looks with favor on optional players—that is, men who come from the majors to the minors with a string attached to them about the size of a hawser cable.

His narrow escape in the Maggart case opened his baby blue eyes to the evils of the system, and he wants the coast and other class AA leagues to combine for a fight against it at the annual meeting of the minor league bashaws in Columbus this winter.

Seldom will the majors agree to let a good player go to a minor league without retaining a string on him, and in addition they generally ask for an option on the entire club. The tendency of this is to undo the work of building up a winning team.

Berry believes that the minors should have the privilege of buying their men outright. Only in this way can a manager feel certain of placing a strong club in the field the following season.

One of the most pretentious athletic carnivals ever staged in California is being arranged by Company A of the Irish Volunteers, to be conducted under the rules of the P. A. A. in conjunction with the twenty-first annual outdoor reunion of the crack military organization at Snell Mound Park on Sunday, September 21.

PATSY OFFERED JOB BY FEDERALS

Joseph Patsy Leo O'Rourke, familiarly known to the fans as Patsy, has been offered the management of a club in the Outlaws — the Federal league. O'Rourke will not commit himself as regards joining the Outlaws, but the matter of fact is he has not given it much thought.

O'Rourke is a good baseball manager. He knows more baseball than most of the other heads of teams in the Coast league, but his drawback has been that he is hot-tempered. A systematic attack by a Sacramento scribe also was the cause of his downfall with the Senators.

If O'Rourke did go to the Federal league, there is no doubt that he would make a success of his team. He has the pepper and scraps for every point. A new league needs more zip and dash than an older institution.

This year the Federal league has been a success. A few towns did not make much money, but in some of the other cities the crowds came out in good style. That it will be more of a success next year is shown by Horace Fogel's determination to join the league. Fogel is a man who makes certain that a thing is a success before he has anything to do in it. He had considerable experience in organized baseball, having been at the head of the Philadelphia Nationals. He got into trouble with organized baseball by writing a signed story regarding the lack of some virtues by big league umpires.

POMONA PROSPECTS UNDER EVANS

Clint Evans, the University of California Rugby star who will coach the Pomona high school athletic teams this year, expects to turn out a star Rugby team.

Many of last year's stars have graduated, but the second team men of last season are promising material, and together with a few of the 1912 first team players who will return, there should be plenty of material for Evans to work with.

Clint Evans starred on the gridiron for the blue and gold for three seasons. Two years ago his work in the backfield was directly responsible for California's great victory over Stanford.

OTTO BERG HOPEFUL OF MEETING ROBERT M'ALLISTER

Astoria Middleweight Will Try Hard to Take Measure of Logan.

By THE TIMEKEEPER.

BOB ARMSTRONG, the recognized as the peer of the present-day trainers, visited Otto Berg's camp at the Oakland Athletic Club yesterday and gave the local middleweight the once over. Armstrong was greatly impressed with Berg's work and declared Otto was at least as good as any of the present-day middleweights. Bob helped train McAllister for his last spat with Petroskey and thinks Otto would stand a fine chance of trimming the Olympic Club lad. Incidentally, Robert remarked that had the training of McAllister been left to himself and "dem college boys" had not butted in he would have put McAllister over the jumps a winner.

Berg had a great workout yesterday and when he tangles with Frank Logan at the West Oakland club Wednesday evening he will be at his very best. Otto went four rounds with Tom Nickola and the boys put up a lively exhibition. Berg is brimming over with confidence and expects to slip the rollers under the Logan party in jig time.

Logan was busy at his San Rafael camp and those who watched him work yesterday declare the Manila lad was never in better shape. Logan will be heavily backed by the San Francisco fans to bring home the bacon and the trans-bay sports are making daily trips to his camp to see him work. The match is one of the most interesting arranged by a local club in some time as the boys are recognized as the best of the present crop of local middleweights and the winner has been promised a match with Bob McAllister at the Wheelmen club next month.

The preliminaries arranged by Matchmaker Tommy Simpson look like the real candy and a great show is anticipated by the fans.

The Wheelmen athletic club, inc., is going to give the Y. M. C. A. a battle for the privilege of entertaining the members of the local police department on physical culture days. The Wheelmen club, through its secretary, Bob Shand, yesterday made application to the city council to be allowed to submit a bid for the use of its gymnasium and the services of its instructors for the benefit of Oakland's finest. With its magnificent pavilion and its up-to-date gymnasium the Wheelmen club will be a strong factor in the local athletic field and should the city council accept the bid of the new club for teaching the policemen the gentle art of physical culture the club will get off to a flying start. New members are being enrolled every day and there will be a big line-up of Oakland's most prominent citizens at the opening which is scheduled for early in October.

Matchmaker Jimmy Rohan, of the Wheelmen club, held a conference with Bob Shand, Otto Berg's manager, last night regarding a McAllister-Berg match which the Wheelmen club will stage in October should Berg win over Logan Wednesday night. Shand feels so confident of Berg's ability to trim McAllister that he is willing to give Bob a couple of pounds the better of the weight. Other terms were agreed upon and Otto will tangle with the ex-Olympic club lad next month should he do as the majority of the local fans expect at the West Oakland club.

Frankie Burns and Louis Rees will be the main event of the four-round show across the bay on the twenty-sixth of this month if Louis Parente can reach terms with Burns. Frankie is willing to start and stated last night that the match was practically made. Young Abe Attell and Henry Hickey will meet in the special event. Hickey will make his stage debut across the bay tonight when he will act as Joe Azevedo's sparring partner.

Frankie Burns and Freddie Welsh is another October card on which the Oakland Wheelmen's club is figuring.

"Ted" Watson put up a miserable showing last night at Pavilion Rink and lost a four-round verdict to Louis Rees, who outfought the auburn haired slugger and beat him at his own game.

Johnny McCarthy knocked out Tommy McCarthy of Chicago in the first round, Foley stopping the match after a knockdown with a right to the jaw. Tommy was no match for Johnny and it was a joke match to arrange.

Walter Scott stopped Charlie Gibbons in the fourth round, Foley interfering because of a wicked cut that Gibbons had over the left eye and that was practically blinding him. Gibbons looked to have a chance at the outset, but he was a beaten boy after his eye was opened up.

Salinas Jack Robinson and Rubbles Robinson boxed what Martin Lawlor, referee in the early contests, was pleased to call a draw. Rubbles won away off and it was the worst kind of judgment on the part of the referee. It wasn't the only bad decision that Lawlor handed out, for he said that Jim Leach and Jack Sherman boxed a draw when Sherman won.

The other contests resulted as follows:

Johnny Aarons knocked out Kid Bertelson in the first round, scoring four rounds.

Jack Bratton stopped George Hall in one round.

Walter McDevitt won from Eddie White.

Eddie Martin defeated Bert Reed.

Kid Ray defeated Young Joe Rivers.

Instead of going to Los Angeles, Joe Azevedo will start his theatrical engagement tomorrow afternoon in San Francisco, filling in an act in place of one that was cancelled. From San Francisco he will go south. Graney has not yet reported the result of his conference with Willie Ritchie regarding a Thanksgiving Day match.

The card of four-round bouts to take place at the Pavilion Rink Friday night was announced last night as follows:

One-Round Hogan vs. Tommy McFarland, 133 pounds; Babe Picato vs. Johnnie O'Leary, 128 pounds; Roy Moore vs. Harry Dell, 116 pounds; Tom Nickolave Grover Brinkley, 158 pounds; Carl Ganbartz vs. Spider Roche, 130 pounds; Frank Jones vs. Charlie Picato, 138 pounds; Stanley Paradis vs. Young Hogan, 133 pounds.

The night of September 20th has been set aside for one big powwow by the Olympic clubmen who ran in the first race over the difficult Dipsea trail in Marin county in 1904. Said powwow is to be on the eve of this year's race, and the "Old Boys" are to celebrate at Willow Camp, which has been reserved for them. A dinner, talks and [illegible] will be the order of the evening.

UNION IN FULL TRADING LISTS

Crosses 160 for First Time on This Movement on 'Change.

NEW YORK, Sept. 13.—Union Pacific continued its advance when trading began today, crossing 160 for the first time on this movement. On the first few transactions it advanced to 161¼, a gain of 1½. There was an active demand for the other leading stocks and the tone of the market was strong. Steel, Reading and General Electric rose a point; Canadian Pacific advanced 3 points and American Tobacco 3½.

The market closed strong. Speculation was of a broader and more general character today and less prominence was given to special stocks. Union Pacific, Reading and Steel assumed the leadership in turn and the bome market gave a consistent display of strength.

The evident scarcity of stocks facilitated the upturn, which in some cases approached the spectacular. This was especially true of Reading, which rose four points, and Canadian Pacific, which gained 5½. The rise extended to a point where it became evident that short covering was not alone responsible, and buying week's bull movement. Transactions in the first hour were on the basis of a million-share day.

Profit-taking sales speared in volume after Union Pacific crossed 161 and that stock reacted a point and became quieter.

STOCK MARKET IS SHOWING UP WELL

Rumors of Payments to Union Pacific Strengthen Securities.

NEW YORK, Sept. 13.—A strong showing was made by the stock market this week, under the lead of the Union Pacific, which soared over ten points. The exceptional strength developed by this market leader was due to reports that a cash distribution would be made to shareholders from the proceeds of the company's sale of its Southern Pacific holdings. The rise in this stock influenced the market in general.

Several other influences contributed to the growth of a more cheerful feeling. The monthly statement of the United States Steel Corporation, while revealing a further shrinkage in unfilled orders, made a better showing than was expected. The Copper Producers' figures indicated that supplies of the metal on hand were the smallest in years. The crop report cleared up uncertainty regarding the extent of damage from drought, and the indicated yield of corn was larger than many estimates.

Trade conditions were little changed. Money rates held fairly steady, with some stiffening of call funds. Bankers looked for an increased outflow of money to the interior. In response to the yearly demand at this season.

The quoted price here was 83c. The delivery was fair, but the demand was not great. No poultry delivery today.

OAKLAND Orpheum

SPECIAL!

Notice is here given by the Orpheum Theater management that an extraordinary feature will be added to the already brilliant vaudeville program prepared for presentation on Sunday, September 14. This special feature will consist of a complete and perfect reproduction in moving pictures of the scenes in connection with Harry K. Thaw's flight and capture and courtroom trial in Canada.

It is announced that these complete and perfect pictures of Thaw's experiences will be shown at the Oakland Orpheum throughout the entire week, at every performance, beginning at the Sunday matinee, September 14th.

It is announced that these motion pictures of Harry K. Thaw will be seen only at the Oakland Orpheum, their high cost making their exhibition elsewhere impossible.

It should be understood that these remarkable pictures will be in addition to the magnificent new vaudeville bill that is headed by Blanche Walsh and her company—a vaudeville bill that is already regarded as one of the most important and attractive of the year.

The management desires to remind the ladies of Oakland that the daily matinees at the Orpheum will afford them next week an excellent opportunity to see Miss Walsh, the greatest of American emotional actresses, in her new play, "The Countess Nadine."

ASHLAND WILL ASK FOR SCHOOL

New District Residents May Petition to Gain the Improvement.

HAYWARD, Sept. 13.—A new school in Ashland is sought by residents in that district, and a petition is being circulated which will be presented to the educational authorities. Residents here consider they have a good plea in asking for a school. They point out that there are over 100 children in this neighborhood who are eligible to attend school. Under the present conditions the children have to travel two miles to attend the nearest school in San Lorenzo.

H. C. Cutting, a prominent business man, who resides in Ashland, is one of those who are agitating for a new school, and it is likely that a meeting will be held in Ashland to consider the proposition.

Principal Guy Smith and Vice Principal Van Deutener of the grammar school head the party, which heard a lecture by Professor Kroeber. Kroeber spoke on "Indians of California," in which he explained how the Indians lived in the early days. Indian relics were shown the visitors, who made an inspection of the museum. The visit was arranged by Principal Smith as a means of inculcating in the pupils a knowledge of the State's history.

BOY SAVES "CHUM" FROM DEATH BY DROWNING

ELMHURST, Sept. 13.—William Richards, an Elmhurst boy, had a narrow escape from drowning yesterday afternoon, when he slipped into a deep hole while wading in the bay. His chum, Tom Davis, saw the peril Richards was in, and threw out the end of a strap while he held the other end. Richards was unable to swim, and was sinking when he managed to grasp the end of the strap, and was drawn to safety. But for the prompt action of Davis, his companion might have been drowned. Except for a thorough soaking, the two boys were none the worse for the adventure and were able to make their way home.

CONSTABLE DEFENDS WOMAN FROM LANDLORD

FRUITVALE, Sept. 13.—Asked to exercise his authority in evicting a sick woman from a house for which she was unable to pay rent, Constable William Allan took the stand of the woman against the irate landlord and permitted her to occupy the house until she recovered from her illness. The constable received notice that a Mrs. C. W. Veigh of Upper Fruitvale has fallen considerably in arrears in rent, and was asked to put her out of the house. An investigation, however, satisfied Allan that the woman was in straitened circumstances, and despite the protests of the owner, the sick woman was enabled to remain in possession.

SOULES WILL TRY FOR DESERT RACE

Cadillac Pilot Tackles the Sand Dunes in Practice for Big Event.

(By EDMUND CRINNION.)

Charles Soules, driver of Cadillac entry No. 1, will be the first of the entrants to go ver the new Los Angeles to Phoenix race course. Soules is now working on his car, getting it ready for the long desert grind, and within a short time will start over the road for his initial tryout.

Soules has been in Los Angeles since the Sacramento road race, in which he finished fourth. In that race the showing of Soules and his Cadillac was one of the sensations. Away in front, he set such a pace that not a car in the race ever passed him until Fresno had been passed, and then only the winner went by the flying Soules.

In the Phoenix race of last year Soules demonstrated that he was some road driver. He took the Cadillac into Yuma 12 minutes behind the ultimate winner, and was the first car to reach the Yuma control. He held his position to the finish and took second honors.

This plucky driver is no youngster. He is a veteran at the wheel, and won the first 24 hour race ever held in the United States. He was for two years the racing partner of Barney Oldfield, and was one of the first men to drive 25 miles on a circular track under 25 minutes. He did this in the early days at Ascot Park in Los Angeles.

"Of course, I expect to win the Phoenix event," said Soules. "I have the car, and if I do my part there is no reason why I should not win. I showed last year that a Cadillac will take the pounding and stand up. A car must have the stuff to go through this race."

BINGHAM PROMOTED.

General Manager Calvin C. Eib of the Pioneer Automobile Company has just appointed Bert S. Bingham, formerly Fresno branch manager for that corporation, general traveling sales manager.

In speaking of the appointment yesterday, Eib said: "Bingham has had a world of experience along the lines of wholesale automobile distribution, and we believe that his ability, coupled with his long association with the factory, will greatly strengthened our selling organization by this appointment. For a number of years Mr. Bingham was a direct factory sales representative, covering the entire Pacific Seaboard for a well-known Detroit concern, and for the past year and a half he has had charge of our Central California territory, with headquarters at Fresno, where the large numberof Chalmers cars now in service speak well as to his work in the San Joaquin valley."

TRUCKS FOR RAILROAD.

H. O. Harrison has been informed that the Chicago City Railway has entered the motor truck market, and with an order for four Peerless three-ton trucks to be used in construction and repair work on its lines.

The trucks are to be equipped with power operated towers and power operated nigger heads for pulling in wire and cable. Two of the trucks are to be made in standard and two in shrort chassis. Two are for new construction work and two for emergency repairs to trolley lines.

Horse-drawn wagons have always previously been used by the company for this purpose, and the purchase of trucks is experimental. It is one of Jackson's contributions to the July and August order list.

TOURS IN A CHALMER "30."

L. Lacay, prominent restauranteur of this city, accompanied by his daughter, has just returned from a tour in Mendocino county. They made the entire trip in a Chalmers "30," and Mr. Lacay is very enthusiastic over the performance of the car.

FAVOR TRACTION DISTRICT PLAN

Prof. Thomas Reed Addresses Progress and Prosperity Committee.

That the proposed municipal traction district, which, it is planned to organize, to take over the east bay street car lines, is a good business proposition and should be supported solely on that ground was the statement made last night at the Chamber of Commerce when, under the auspices of the Progress and Prosperity Committee, Prof. Thomas Reed addressed the Oakland boosters. Reed declared that the matter was purely one of economics. He stated that a municipal investment of this kind would, in his belief, pay, and that now is the time to arrange to take over the system. A plan was also discussed for segregating the purchase of the Key Route and the street car lines, provided it is decided to make the purchase.

"The law under which these proceedings must be held is, in my opinion, one which thoroughly protects the interests of all concerned and makes possible the realization of municipal ownership simply, fairly and equitably," said Professor Reed.

"No city is compelled to join in the movement and the rights of the people and each of the integral municipalities are thoroughly protected in the method of management of the district.

SYSTEM IS EXCELLENT.

"Our traction system is in excellent condition. The service is good. The system is one of the best in the United States. The present operative management of the system is excellent and should be continued by the district. I have reason to believe that we would have no difficulty in arriving at a friendly agreement with the present owners of the property as to the price to be paid and that we would never have to resort to the condemnation proceedings provided by the law.

"This is not a sentimental matter or one born of civic pride or patriotism, but a cold-blooded business proposition; one that can stand on its business merits. The system would go into the hands of a receiver if the company were compelled now to do the street work and make other improvements which the cities have a right to expect the company to do.

DANGERS OF SALE.

"The owners of this property must provide millions of dollars to carry on the business, or sell, either to interests allied with the Southern Pacific or to foreign capitalists. The one would mean Southern Pacific monopoly and elimination of the competitive principles which have made the system so perfect. The other would mean absentee ownership and lead up to the same traction troubles from which San Francisco has suffered for years and from which she is now escaping through municipal ownership.

"A careful study of the figures in the possession of the State Railroad Commission will show any business man that the plan is feasible. The district can make money even if the business does not increase, which it is bound to do. We can realize, in the next ten years, the harvest which the projectors of this system had planned to reap.

KEEN FUTURE INSIGHT.

"With shrewd business acumen and a keen insight into the future development of this community, these men dared to capitalize and bond their property to nearly double its actual value, knowing full well that in a few years it would well be worth the paper value they placed on it. They would have reaped this profit had not their present financial troubles come upon them. And I am sure they would be glad to know that the municipality and not some alien financiers is to profit by their plans and efforts if they, themselves, cannot do so."

MANY TO ATTEND ANNUAL REUNION

B'nai B'rith Lodges Will Gather at East Shore Park.

SAN FRANCISCO, Sept. 13.—Members of Oakland Lodge No. 252 are expected to attend in large numbers the annual reunion and outing of the ten San Francisco B'nai B'rith lodges which will be held Sunday at East Shore Park in Contra Costa county.

In the afternoon dancing will be enjoyed in the pavilion on the picnic grounds and band concerts will be rendered. Dainty booths will be conducted by young women from the three auxiliaries of the Daughters of the Covenant.

The affair will be held under the auspices of the Committee of Fifty, which represents the San Francisco lodges in social affairs. Proceeds of the outing will go to further the committee's work in B'nai B'rith activities.

ITALY IS OPPOSED.

ROME, Sept. 13.—It is semi-officially announced that there is no foundation for the rumors in circulation that popular meetings are being organized which will favor annexation of the Island of Rhodes, in the Mediterranean, off the southwest coast of Asia Minor, by Italy. The announcement adds that Italy holds firmly to the principle that no great power should reap territorial advantages from the present crisis in Turkey.

PORTER CHARLTON IS EXAMINED BY DOCTOR

COMO, Italy, Sept. 13.—Physical examination was made of Porter Charlton, the self-confessed wife murderer, yesterday by Dr. Sallo, the jail physician.

The physician said it would be necessary for him to make further ex... Charlton's actual physical and mental condition.

To all outward appearances Charlton is normal, eating and sleeping well. However, he was reported in the United States to be a victim of tuberculosis.

On account of the removal of Judge Regoni to another court, criminal litigation in this district may be held up, so that Charlton will not be tried until next year.

Good Roads for Telephone Talk

THE good roads movement has not been confined to the highways. The Bell Telephone System has covered the country with "good roads" for telephone talk, reaching every nook and corner.

There are more than 12,000,000 miles of these "good roads" in the Bell System. Some of them are strung in single pairs or in aerial cables from pole to pole; others are hidden away in underground conduits; they cross lofty mountain chains; pass under mighty rivers and reach the heart of each industrial and commercial center of the nation and to the most remote habitations.

These "good telephone roads" of the Bell System are all operated by one system, under one policy, forming one continuous system of intercommunication. ...connect more than 7,500,000 telephones for universal service.
